Secret of Mana is an outstanding game! I'm glad you have given extended coverage to that game. When I first played it, I thought it was like a cross between A Link to the Past and Final Fantasy II. The fighting and moving about resembles Link, and the hit/magic points, multiple characters playing at once, the large, mysterious world, and how the hero is banned from his home all resemble Cecil and his game. With this coverage, people who are having trouble getting to the Mana Fortress can see what's ahead and have something to look forward to. Players can also see the types of weapons and their strengths against enemies, too. Secret of Mana is a VERY challenging game and I think it is worthy of a strategy guide.

I really love the expanded coverage on Secret of Mana! It's well-written and the illustrations are top-notch! I have only one regret though, and that's spending 15 bucks on the official strategy guide. I've enclosed the actual receipt as proof of my stupidity. I don't need it anymore. What I'm really trying to say is: Your coverage is just as informative, even a thousand times better!

STEVEN MASENHEIMER

I fully DISAGREE with your editorial comment regarding how we should be enjoying your expanded coverage of Secret of Mana! What coverage?? All you did was tell the story. You didn't give any help at all with the exception of giving some information on three weapons. What ever happened to dungeon maps (in this case, palaces) or maps of the overworld, etc? The Secret of Mana coverage, while nicely laid out, is very disappointing.

One of our main goals when we decided to give extra coverage to RPG's was to turn readers on to the fact that RPG's are cool! In Japan, RPG's are the best-selling games, but here, they fit into a "niche" market. Many great RPG's have recently been released and many more are on the way. Final Fantasy III should please just about every RPG fan. Even though our Secret of Mana coverage was not totally revealing, we wanted to show our support for the game and the RPG genre by covering the game in more detail than a "normal" game review would.

6 NINTENDO POWER
Recently, I was trying to get our seven year old son up to come to breakfast and get ready for school. I sat on his bed and told him that his breakfast was getting cold and he needed to get out of bed. He replied with his eyes still closed, “I want to finish looking at my dream!” I asked him what he was dreaming about. He said, “Super Nintendo.” I told him to turn it off and come to breakfast. He answered with his eyes still closed, “OK. In just a minute. I’ve just got two lives left.”

I will be moving to New Mexico around the 15th of July. My best friend, Cayce Munson, gave me a going away present the night before he left on a trip. Cayce said he’d leave my present on my doorstep before he left at 5:00 a.m. I woke up to find his newest Super NES game, Secret of Mana, at my feet. He didn’t even heat the game! He had four different quests—each named as part of a sentence. The names were “I,” “Will,” “Miss” and “You”. Thank you, Cayce.

Maureen Witkowski, from Guilford, Connecticut was the Grand Prize winner of our Player's Poll Contest from Volume 58. Maureen was especially lucky because year after year, the Nintendo Power Awards consistently draw more entries than any other Player’s Poll! Twenty-five Super NES games of her choice was the prize and we must say that Maureen has excellent taste in games! Mega Man X, Mortal Kombat, StarFox, Secret of Mana, SF II Turbo, Aladdin, Super Star Wars and The Magical Quest were just some of her game selections.

You’ve been reading about DK’s most outrageous adventure for a while, so now it’s time to get down to the nitty-gritty and start talkin’ strategies! The following pages are a small sampling of the areas that DK and Diddy will encounter.

1. Kongo Jungle
2. Monkey Mines
This key lets you know what types of areas to expect while you try to re-establish your banana hoard and rid the island of King K. Rool and his evil band of Kremlings.

Ropey Rampage

Even though Ropey Rampage isn't the first stage in the game, it does provide us with a great cross-section of enemies and obstacles as well as several hidden items. When you finish the first area in the game, Jungle Hijinks, the setting turns dark and it continues over into Ropey Rampage, but now it's raining! The sun does come out again.

Even though Ropey Rampage isn't the first stage in the game, it does provide us with a great cross-section of enemies and obstacles as well as several hidden items. When you finish the first area in the game, Jungle Hijinks, the setting turns dark and it continues over into Ropey Rampage, but now it's raining! The sun does come out again.

There are a few ways to unearth a tire from this area. When you let go of the vine just before it, jump over the six bananas and land on the fragile ground. Roll the tire to the right and use it to gain altitude. Or, if you have Diddy, you can jump up on to the next tree and then jump down to the fragile ground that holds a Winky Medallion.
1 LEAP OF FAITH GETS YOU TO BONUS AREA

How would you even know that this Blast Barrel was located here? You probably wouldn't unless you fell off of a tree and saw it on your way down. The barrel shoots you horizontally through the far wall. A much easier solution for finding one of the elusive Ropey Rampage Bonus Areas is to check our map. Pick up a load of bananas and the Golden Letter N in the Bonus Area.

3 FINDING THE NEXT BONUS AREA

Just before the rain dies down and the sun comes out, you will have your chance to enter the second Ropey Rampage Bonus Area. Just to the left of the arrow that points the way to the exit, you will see a gap between two ledges. If you stand on the right ledge, you'll just be able to see part of a barrel. Simply fall into the gap and into the barrel. It's a Blast Barrel that puts you into a 1-Up Balloon guessing game.
 Appropriately named, Bouncy Bonanza will keep DK and Diddy hopping all the way through the cavernous stage. Both stationary and moveable tires are plentiful here. It's important to roll moveable tires into locations that are advantageous to you. Zingers approach rapidly from the sides.

**2 TAKE WINKY FOR A RIDE**

When you drop down after taking the high route through the mid-section of Bouncy Bonanza, enter the door on your right. Winky will be waiting patiently in a crate. Bust him out! Winky's amphibious hyde is tough. He can take out Zingers with one bounce! See how high you make Winky jump.
1 ROLL THE Tire RIGHT
Use the tire that helped you reach the Continue Barrel and roll it to the right onto the moving platform. While it's on the platform, jump on it and get a boost to the upper level. You'll find the Golden Letter N along the upper path. Other than that, there's no reason that the upper path is better to take.

3 GET UP TO THE BLAST BARREL
Just after you come across the Golden Letter G, you'll also come across another moveable tire. It's just kind of sitting there trying to look inconspicuous. Obviously, you've gotta do something with it! Roll it over to the right, avoiding the Zinger, and carefully roll it onto the horizontally-moving platform in the chasm. You can then use its rubbery qualities to bounce you up and into the Blast Barrel that will take you to a Bonus Area.
Clam City

It's another watery test for the dynamic (and hairy) duo of DK and Diddy! You may think that gorillas and monkeys don't like to swim or even get wet, but these two crazy go-getters don't mind at all. They enjoy a cool dip every now and then. The water is very refreshing (except for that toxic pit, Poison Pond). Be sure to check for hidden passages!

2 KEEP TO THE TOP

Bitesizes hunt in packs and they usually spread themselves out to cover a lot of territory. When swimming through this area, try to stay to the top. If you have a solid surface to push off of, you're better off. Better yet, find Enguarde before you get here. You can pick up the Golden Letter O here, too.

3 A SIX-PACK OF TEETH

A gang of hungry Chomps Jr.s patrol this area. They swim back and forth and create a sort of "weaving" pattern amongst themselves. If you don't have Enguarde, try to swim up and down when you go through them.
DON'T RAMBO THE CLAMBOSS

You can't shell the Clambos so you're just gonna have to avoid them and the pearly projectiles that they profusely propel. If you try going through certain sections of Clam City quickly, you're bound to get hit. It's almost guaranteed. Just relax and enjoy a nice, casual cruise. The music is relaxing, isn't it? You'll be able to see the pearls before you get into a troubling position.

CHOMP IT UP

Ascending through this vertical water passageway will put you face to face with six Chomps. If you've got Enguarde, it's no problem—just poke 'em! If you don't, just take your time and don't get in a hurry. Tread water. Stay left and when you make it to the top, the Golden Letter N will be right there for you to grab!

CROCTOPUS MAZE

Three Croctopuses (Croctopi?) are spinning around and are creating a kind of barrier that blocks the Clam City exit. If you're going it alone as DK or Diddy, be very hesitant and watch which direction each Croctopus travels in. You can't really follow them around because you run right into the next one.
Thankfully, the snow isn’t pelting down upon our heroes during their entire excursion in Ice Age Alley. It’s just a little chilly. If you play it right, though, your feet won’t get cold. You can ride on the back of Expresso. There are a lot of small ledges here. And they’re slippery, too! It’s a good idea to keep jumping around so you don’t slide off of a ledge.

**HOW TO HIT THE BLAST BARREL**

Getting up to the Blast Barrel in this area is easy if you fly Expresso up there and jump off of his back. But if you don’t have him, bounce off of two Neckys and over into the Blast Barrel. Don’t fall off of the ledge just to the left of the Neckys— you’ll never make it back up.
SADDLE UP THAT BIRD!

If you check the map, you'll notice that you don't start Ice Age Alley at the beginning of the map! High-tail it to the left when you start and you'll locate the Golden Letter and a box that contains Expresso. Saddle him up and take off! His help will be critical later on in the stage.

DONKEY KONG COUNTRY

MANKY KONG ATTACK

A cross between mangy and skanky, Manky Kong hucks barrels for a living. In Ice Age Alley, Manky Kong has positioned himself quite well. There are inclined surfaces to deal with before you reach him. The last time you see him, before the Exit, is tricky. Not only do you have to deal with the barrels and the slippery surface. You also have to deal with a gap to jump across.
SPARKS GALORE! SPARKSTER ROCKET KNIGHT FLIES AGAIN!

Once again, the Legion of Rocket Knights has called on its champion, Sparkster, to save the world of Eginasem from tyranny. Join this valiant possum as he fights minions of wolf soldiers, hordes of flying demons, and their evil mechanized leaders as he struggles towards the final battle with Generalissimo Lioness! But it won’t be easy. Sparkster must think his way through nine menacing stages, with only an occasional piece of fruit and your help to keep him going. So fire up that rocket pack, sharpen that sword, and remember: the future of the world is at stake. Quit playing possum, and start playing Sparkster!

THE STORY...

Princess Flora has been captured by Generalissimo Lioness, along with the magic Peace Pendant! It’s up to Sparkster to save the young princess and defeat the mechano-bosses of Lioness’ army—before Planet Eginasem is swallowed up by their evil shadow!

Sparkster has a few special attacks: a flaming somersault aces out the flying demons. And his rocket attack sends the wolf soldiers packing!

Premier Sauce has been captured by Generalissimo Lioness, along with the magic Peace Pendant! It’s up to Sparkster to save the young princess and defeat the mechano-bosses of Lioness’ army—before Planet Eginasem is swallowed up by their evil shadow!

The dangling possum ripples along branches and poles by his tail in search of life-restoring apples and valuable gems.

Don’t be fooled by his size—Lioness is big trouble!
TO THE SHIP

The adventure begins in the forest where the wolf army guards the Mother Ship. Sparkster must get to the ship before it leaves Eginasem's atmosphere and takes the princess away forever. But be sure to gather gems along the way. Every 100 gems give you an extra life!

And you thought the wolves were tough! This Mechan-ape means business! Avoid his super move attack and zap him with spining sword shots. Like any hungry primate, he's got bananas—grab them for extra life.

In the ship, rockets blast through the steel wall. On the other side, you'll find some secret tasty apples for extra life.

Just when the princess was in view, up jumps the Golden Knight. He punches and sends spiraling sprites after you. Shoot his red eye when he raises his shield but be careful—a laser beam is sure to follow!
2
STAGE
BELLY OF THE BEAST

Onward! Remember, this is the MOTHER Ship—it’s BIG. You’re entering its fiery power center, filled with bothersome fire demons. Skate along the pipes with your tail, and keep an eye out for fruit and gems along the way.

ROCKET BOOST!
A shortcut! As you begin this stage, don’t let the exploding grappling chain get you. Stand next to the pipe and rocket jump up. At the top of your leap, somersault left to a nearby platform. From there, make another rocket jump right. Be sure to master this move—it will prove valuable!

EVIL EYE
You’re walking along stealthily, and suddenly the floor starts to rumble! Above you is a menacing red eye and a cannon firing deadly laser beams. Stay under the red light and power jump to put them both out of commissi—

BEFORE MOVING ON, HEAD LEFT ALONG THE PIPE TO FIND A FEW GEMS AND A TASTY APPLE FOR EXTRA POWER

BE Quick with your jumps. The closer the eye gets, the faster the laser beams come!

BEUV
BERST
Onward! Remember, this is the MOTHER Ship—it’s BIG.

You’re entering its fiery power center, filled with bothersome fire demons. Skate along the pipes with your tail, and keep an eye out for fruit and gems along the way.
After narrowly escaping the grinding gears, you've got two smashing pistons to deal with. Use the rocket attack to get through fast, but keep on your toes. Don't bounce off the second piston and back under the first one. There's no getting out from under these heavy loads!

What will Generalissimo Lioness come up with next? This fiend has two probing arms, ready to shoot pipe bombs and throw anything he can pick off the conveyor belt. It's tough to avoid the long arms of this final foe, but do your best. Shoot well-placed sword shocks and somersault attacks at the power cell at his head to put an end to his fun!

In the second White Room, make quick work of a waiting wolf, and rocket jump through a gap in the ceiling to find valuable gems. And be sure to check out the first White Room for a bigger prize.
**STAGE 3**

**BUDDY UP**

Sparkster picks up the pace in this stage—with the help of his faithful companion Stampy-do. You’ll fly across the fields and mountains of Eginasem to get to the enemy’s secret lair hidden in an ocean bay. But there’s plenty of trouble along the way!

---

**ON BOARD STAMPY-DO**

Stampy-do gives Sparkster an extra weapon to add to his arsenal. Its ring laser will take care of wolves carried by bird copters. Shoot the bird copters first. This will take care of both the birds and their shooting wolf passengers. And Stampy’s supersonic speed will help get you out of sticky situations like the collapsing bridge. Keep him running at top speed, or fall into the bottomless canyon below.

---

**DUELING THE RED WOLF**

This wolf must have an inferiority complex! Aboard the stilted pincher robot, he throws bombs while his mech body thrusts its prodding pinchers at you. Jump up and shoot a well-timed sword shock at the VVI:;i;l. (Don’t worry—he’ll stay under you!) Then, double up with a fiery somersault. After a few of these attacks, this wolf will learn that the taller they are, the further they fall.

You and Stampy-do will have a good laugh after doing away with this wolf’s robot. Watch him run away in nothing but his red long Johns!

---

**MECHANI-PEDE!**

By the size of this flying caterpillar, you can tell it takes a lot of fire power to destroy it. Aim your sword shots and somersaults right at his head. Be careful not to get caught above him, though. It’s hard to get back to Stampy. As you fire away at his blue bulk, segments will fall off one by one, only to become guardians who will fly right at you. But not to worry—one shot does them in.

Just when you think the battle is over, the mechani-pede coils up and fires laser balls. Stay back and shoot Stampy’s ring laser right at him.
ON THE SEA

This floating power factory has some special surprises for Sparkster. Watch out for working wolves carrying blow torches, sleeping seamen, nasty red laser beams, and the occasional tidal wave!

START

RED MENACE

The red laser beam runs the length of an entire level of the power plant, and can cause Sparkster some damage. Duck to the pits in the floor until the laser stops to power up and shoot at its lenses. But be careful; there's three of them, and each is guarded by wolf warriors!

GEM SHOT

Lioness is an evil leader. You'll come upon several slave wolves working day and night to produce power for the Wolf Army. They're too busy to pay you any attention. As you walk by the first station, use the power jump/somersault technique to find a room hidden above the ceiling. You'll find dozens of gems to help give you an extra life.

AND THE KNIGHT HAS BEGUN

Sparkster's not even half way through his adventure! Five more stages hold unheard-of perils for our pampered hero. He'll unlock the secret of the Egneem pyramid's shifting passages. He'll team forces with Powered Gear for some extra punch. In Stage 7, the game shifts gears as Sparkster flies to the air to destroy the enemy's battleship. And, in Stage 8, he meets the ultimate challenge to save Princess Flora!
Killer Instinct certainly is a fighting game. But there's so much more. We're not talking about the rad graphic imagery, the amazing rotation effects or the ultra-fast moves. Granted, these elements are critical to the overall appeal of Killer Instinct, but what we're getting at here is the philosophy of what makes a truly unique and truly challenging fighting game. Almost anyone can stand in front of a tournament fighting game cabinet and slug it out with regular and special moves, but the players who are going to prevail are the players who can consistently put together workable and useable combos. Being able to score big and win with combination moves radically elevates the gameplay experience of tournament fighting games. The combinations that we will begin to explain here deal with "jumping-in," like some other fighting games have. Jumping-in combos are not the only way to initiate a linked series of moves in Killer Instinct, but it's a good point of reference and a good starting place to understand the philosophy behind the strategies of the game. This is all you need to know:

**Combination Moves!**
The arrows on the diagram are there to key you in on how Auto-Seconds work. The KI control panel is set up like the diagram illustrates. You have your directional control plus three buttons each for High Attacks and Low Attacks.

**HOW AUTO-SECONDS WORK**

Auto-Seconds is a term we like to use to describe the second move of a combo and how it relates to the first. KI Auto-Seconds apply to jump-in combination moves. Looking at the layout of the controls, the Auto-Second will correspond as the arrows indicate. Depending upon which button you press as part of your first move (it can be any of the six), the arrow shows you what button the second part of the combo should use. Now, you don’t have to follow this rule. But if you want to get up into the realm of 6-to 8-hit jump-in combos, you need to subscribe to this theory.

**AUTO-SECONDS: SOME EXAMPLES**

When you follow the Auto-Seconds theory with jump-in moves, you’ll score bonus or “free” hits with your second move. With a second move other than an Auto-Second, you won’t score as many hits. Of course, you still have to finish up the combination!

**HIT ‘EM AGAIN!**

Jago jumps in at B & Orchid with a Fierce Punch.

Here’s the Auto-Second. It’s a standing Medium Kick.

WHAM! The next two hits are free! No buttons pressed!

After this hit, you should probably try a ___...we’ll let you figure it out.

Here again, Jago jumps in at B & Orchid, but this time he leads with a Quick Punch.

According to the Auto-Seconds theory, a Quick Kick should be your next move. It is!

Without pressing any more buttons, Jago will deliver a low kick. It happens very fast!
DO SOMETHING DIFFERENT

This example shows a combo finished with a Laser Punch, but since the move was a part of a combo, Jago pulled out his sword and racked up more than one hit with the move. You can score about three extra hits with this move! What you should shoot for is to be able to link up special moves within combos to make them do something different...or something better!

DANGEROUS SWORD PLAY

Jago can whip his glowing sword out, hit his opponent with it, and shove it back in its sheath almost instantly. It can all happen extremely fast! Don't blink or you may miss it. As a special move, swinging his sword will usually only net Jago one hit. What you should be looking for are ways for Jago to score more than one hit at a time with it.

MEDIUM KICK WITH AN AUTO-SECOND

Here's a perfect example of how easy it is to put together a stunning sequence of moves. Jago jumps in at Fulgore with a Medium Kick. A Fierce Punch follows as the Auto-Second which in this case, is a ducking move. This Auto-Second gives you an uppercut followed by the Laser Sword move (for free). If you've been paying attention, you could figure out that the moves that we illustrated above on this page can be "attached" to the end of this move to form an 8- or 10-hit combo! Taking it even farther, you could even come up with a 12-hit combo by sticking another Auto-Second in after....
LEADING WITH A FIREBALL

Now that the Wind Kick example shown above has got you thinking about how to link special moves and combos together, we'll reinforce those thoughts with this example of Jago's Fireball special move. At the end of the move, when the Fireball hits and your opponent is bearing the brunt of the hit, go right into another set of moves to form a killer combination!

Wrapping it up and taking your game to a much higher level

Now that you know the “how-to” for jump-in combos, your next step should be to finish the combos in a way that scores you the most hits for your efforts. Again, it’s all in how you put together a series of moves that makes them all work together. Knowing the Auto-Seconds theory, you’re one step ahead of the competition and well on your way to becoming an unstoppable force in front of a Killer Instinct arcade machine!
From a far-off field of cow chips and hay bales comes one of the wildest games ever made! It's got everything: crazy characters, non-stop action, and some of the most amazing graphics you've ever see. Welcome to the new generation of Super NES games—Earthworm Jim!
Who Is This Jim Anyway?

One day an unsuspecting worm was crawling along when a strange object fell from the sky right on top of him. It was a space suit, unlike anything Earth had ever seen. Suddenly, a blast of space radiation shot through the dazed worm, turning him into a giant mutation, and Earthworm Jim was born! But following close behind the suit was the nasty Psy-Crow, sent by an unknown leader to get the suit back.

SO SMOOTH...

The graphics on this game are so smooth, you'll think you're playing a cartoon. As one fan exclaimed, "It's like butter!"

Cool Concept

Earthworm Jim goes beyond most video games out today. Where else will you find a superhero that's a worm?! What other game gives you non-stop action across seven totally different stages, each more bizarre and exciting than the last? And where else could you go up against a killer crow, a sinister snowman and join forces with a friendly hamster? Nowhere but in Earthworm Jim!

Jim's flexible body gives him a good grip on perilous chain bridges, and lets him slide through some tight spaces.
Go where only a superhero worm would dare to go—an old toilet bowl! It warps you to a grungy, but worthwhile secret area.

Stage 1 takes you through some of the slimiest territory you'll ever see. Explore the unsteady ledges and piles of tired tires to find hidden treasures. But watch out—this spooky land of garbage and gunk hides some surprises. You'll have to be crafty to worm your way through it!

Exploration:
- **COW X-ING!**
  - At the cow crossing, head right and up the rocks to discover a hidden chain. Walk across it to the left to get some Power-Ups!

- **TOILET WARP**
  - The catapult sends this grazing bovine flying. But remember, cows have a history of jumping over the moon. They're bound to come down somewhere!

- **MOON SHOT**
  - When you come to this stubborn cow, notice that she's standing on the end of a log. Knock down the refrigerator to launch this cow out of your way!

- **TREAD MARKS**
  - A pile of tires marks this treasure spot. After disposing of the cow, fall off to the left edge of the tires and find Jim a hidden 1-Up!
CRANE-KY CHUCK

The Stage 1 Boss is too high to reach with your gun. Instead, take the indirect approach. Shoot the boxes on the ground to the edge of the screen. They'll bounce up and give ol' Chuck a taste of his own medicine!

Before finishing off Chuck, drop down and spring up to two small platforms. You'll find ammo, refills, and some life pellets to help get you through Stage 2.
And you thought it was a little warm in the junkyard! In this pit of despair, flying demons follow you around, nipping at your heels. And lurking beasts wait in the shadows. It'll take all of Jim’s powers, your quick thinking, and some special tricks to get through this fiery fortress.

JUNGLE JIM!

After whipping the snowman, go left and jump right off the hill! Whip Jim’s worm-body out again and latch on to a nearby hook. Then, Tarzan your way across the screen up to a hidden area. After poking your way through a narrow opening, you’ll find some much-needed ammo and a secret 1-Up!

ANDY ASTEROIDS

After this and a few other stages, you and Jim enter a bonus race with that evil Psy-Crow. Flying high in space, Jim speeds along towards the far-off space vortex leading to the next level. Along the way, you and Jim try to collect all fifty of the blue pods floating along the track. Don’t run into any asteroids here, just keep moving as fast as your jet pack will fly you. If Earthworm Jim can somehow outfly the speedy Psy-Crow and collect all fifty balls, you’ll get an extra Continue to keep your game going. If you lose, you have to battle Psy-Crow—on his own turf!

Snagging all those pods is hard work, and you have to be quick to beat Psy-Crow. After this tough race, Jim celebrates space cowboy style with a Yippee-ki-yay! But the celebration can only last a moment—there’s plenty more to go before our hero can really whoop it up!
FROSTY?
There’s something really creepy about a snowman that breathes fire. And to make matters worse, gun blasts can’t hurt him. You’ve got to whip this guy into shape! And be quick. If you hurry, this snowball won’t be much trouble.

STEALIN’ FELINE
The Stage 2 Boss has stolen your suit! But not to worry. Jump over the fireballs he shoots at you. They’ll hit his pedestal, and after a few shots, the platform will fall and so will the suit.

GEM ROLLIN’!
When you come to a spinning green gem, jump on it and run opposite the way it turns. Even though you’re running in place, these gems will take you where you need to go!
Stage 3 takes you under the murky sea to a world of beefy cats, a-maze-ing underwater passages, and a friendly but fierce hamster that will be happy to lend a paw. This stage will test Jim more than any earlier stage, so pay close attention, or wind up as fish bait!

**HEP CAT**

When you see one of these pumped up cats, watch out! You can't kill them, and if they get you, a choke and a smack will do heavy damage. Instead, hang from the ceiling and let them go by. Then, onward!

**JIM COUSTEAU!**

Jim's got to navigate uncharted waters in the Crystal Fish Bowl, and fast! He's only got a short time to get through this ocean maze. But be careful. Too many bumps into the coral and this cruise is over!

**HAMSTER-IFFIC!**

This hamster makes life a little easier for you and Jim. It takes a special kind of hero to ride a giant rodent bareback, and Jim fits the bill. So hop on, and ride your steed through the tunnels of this underwater habitat.
**Stage 4**

You've got to be speedy, or the clown will smash Earthworm Jim into sure to grab plenty of fuel along the way.

Don't pass up the main fuel supply—it gives you a whopping 99 units of Kelp-a-line. Without it, you're sunk!

**Fuel Cap**

Look for the secret passage in the wall. Go through the wall and find some hidden fuel to give you...

PLAYING IN THE DARK

Have you heard those guys who go on about how great Genesis sports games are? I've heard them, too, so I did some research, playing the games side-by-side to compare graphics, sound, and playability. In virtually every case the games looked and sounded dramatically better on the Super NES due to its two graphics processors and 16-bit audio processor. In some cases, like Tecmo Super Baseball, the Super NES version had a special feature - like the 3D fielding perspective of TSB - which added to the playability. And where the play was similar, the added realism of better graphics and sound on the Super NES added a lot to the experience. So the next time a friend gives you that old line about Genesis having the best sports games, show them the difference - don't let them play in the dark.

NBA ACTION IS LIVE IN '95

San Mateo, CA - Do you have what it takes to win in the NBA? Do you have the moves, the smarts, the speed, the stamina? NBA Live '95 from EA Sports demands all of that and more. More? Off-court moves are just as important. Making substitutions during a game, setting offenses and defenses, assigning match-ups, or even drafting your own Dream Team in the Custom Mode can drain your brain. It's challenging, but it's also filled with cool options including a multi-player mode which up to five players (with a multi-player adapter) can hit the court, a playoff option, this year's NBA schedule, battery backed-up memory and so much more that it could take you months before you get it all down. Like they say, it's in the game.

By EA Sports

They react to the ball as a living player would react...

Very impressive! Play control is best in the shooting category. You'll have to get used to the angle of the court and how you use the Control Pad at 45° to run straight. Fans of NCAA Basketball will notice how different it is to execute passes with precision because Live '95 doesn't have pass lanes. On the other hand, you can pass on the run for added realism.
IN THE GAME

San Mateo, CA--NBA Live '95 gives you all the moves of professional basketball along with some of the best AI ever for a sports game. Your computer teammates are always looking for possibilities and mismatches to exploit, just like real players. But for them to be successful, you have to recognize when players are open or are making their moves, then you must get them the ball, and finally pass off or shoot at the right moment. It's a lot to think about and the action is non-stop.

On offense you can call for an Automatic offense, Box, Inside, Sideline, Motion, High Post, 3 Point, and Isolation. You can also instruct your team to Crash the boards or not. You aren't limited to one of the eight offensive schemes. In fact, it's best to adapt your offense to the situation. If you're ahead and it's late in the game, choose the Isolation offense. You'll waste time and get a higher percentage, open shot. If you're behind and time is short, a Motion offense or the 3 Point are better choices to close the gap.

Defensively, look for ways to put enough pressure on the opponent so that you get take-aways. For instance, if you set up your defense using the Half Trap at High pressure, the result is that your computer players will try to trap the opposing player with the ball. This works great if you keep control of one of your players in the center of the key, forcing the opponent to stay on the perimeter. With top defensive teams like the Sonics, this sort of strategy pays off time after time, but you also have to watch out for the fast break.

If you've used all the tricks and still don't come out ahead, you have the option either to Save or Not Save, in which case you can play the game over and try to win again.

LEAGUE LEADING ALL-STARS

NBA basketball is a game demanding incredible skill. To win big, you need big time players who can sink the shot, grab the rebound or make the key play in the crunch. EA Sports programmed the each player with his physical strengths, weaknesses and talents, but one thing is missing. How good is the human player? To give yourself an advantage, you can trade for the hottest players in the league.

3 POINT %

The best distance shooters include the Hornets' Johnson, Richmond from Sacramento and Chicago's Armstrong.

REBOUNDS

Who else but Dennis Rodman could lead the league in rebounds during and Shaq aren't far behind.

FIELD GOAL %

Shaq usually takes the crown in Field Goal % with players like Thorpe, Mutombo, Webber, and Kemp closing in.

JAMMING LIVE

EA Sports did everything in their power to make the experience of Live '95 seem like a real NBA match-up including the angle of the court, the on-screen stats that appear at random and the options for instant replays and slow motion dunking. Again, it's the excellent animation that brings home the life like feel of the game. The sequences below show the actual frame-by-frame moves captured by the instant replay. It looks cool, but the replay feature also lets you analyze each play and learn to do it better and smarter.

Blocking shots is one of the toughest moves in basketball because it takes precise timing. That's true in Live '95, too. The first rule is to stay between the ball handler and the basket.

So you think the layup is the easiest shot, think again. Unlike many video basketball games, Live '95 keeps track of your exact position and shooting a step late will blow the shot.

Passing animation truly shines in this game. You pass while running, unlike many video b-ball games. Players can take a pass in the air and continue up to dunk—the old alley oop!

Total points per game will be a duel between the likes of David Robinson, Shaq, and Olajuwon.

Setting the pace at the line will be the Pacers' Miller, Abdul-Rauf, Kevin Smith, Armstrong, and Horacek.

Stockton will very likely lead the league in the Assist category with Byklock, Bogues, and Kevin Johnson trailing.

The big play men like Mutombo, Robinson, Olajuwon, Mourning, O'Neal and Ewing will reject the most shots.
ANDRETTI'S CHALLENGE

By Bullet-Proof Software

Redmond, WA—Michael Andretti may not have been the first champion Indy car driver in the Andretti family, but his video game—Michael Andretti's Indy Car Challenge—will be the first Andretti video game on the Super NES. Last year's run of F1 racing games may have left a lot of American racing fans hungry for some home grown action. As a result, Michael Andretti's Indy Car Challenge, ESPN Speedworld, Nigel Mansell's Indy Car Racing, Al Unser Jr.'s Road To the Top (also reviewed in this issue) and Mario Andretti Racing from EA Sports are all hitting the pavement in the near future. That's a lot to choose from, but each of the games has a special focus and features. Although the Nigel Mansell and Mario Andretti games are still to come, when comparing the rest of the new American racers, Michael Andretti's Indy Car Challenge clearly takes the checkered flag.

Michael's Indy Challenge has several outstanding features, but the one that gets the most attention is the Replay. After your race, you have the option to replay the entire event. During the replay, you also have the option to change the camera view from the rear to the side or even out in front looking back. Only Ubi Soft's Street Racer has a similar feature. The great thing about this, besides letting you relive your moments of glory, is that you can study courses in detail and driving tendencies of opponents.

Replaying the past is only part of the appeal of this game. The graphics and music are good and the game, boosted by a DSP chip, imparts a realistic sense of speed. The two-player, split-screen option adds the dimension of head-to-head competition missing from some other top racers like last year's hit Nigel Mansell's World Championship from Gametek. With 16 race tracks, including both oval and road courses, Championship VS and Practice Modes, a password and difficulty settings, Michael Andretti includes all the basics race fans expect.

"After your race, you have the option to replay the entire event."
If you’ve played a lot of video game racers in the past, the first thing you’ll notice about Michael Andretti’s Indy Car Challenge is that the steering feels great. One tap of the Control Pad won’t send you spinning into the wall. Other nice touches include the turn arrows that snake ahead of your car briefly before a curve. Unlike the traditional sign arrows, which you’d never see on a real race track, the Michael Andretti system appears long enough to warn you, but it also shows the type of curve, whether it’s a hairpin or Es curve. The screen itself has been laid out to make it easy to keep your eyes on the road while also getting the information you need such as the status of your speed, fuel, and place in the field. You can customize your car for the conditions on each track, but the default is usually the best. Pushing the limits with higher acceleration or slicker tires will challenge even the best drivers.

During the Championship season, you’ll find two types of courses, each with its own driving strategy. The oval courses like Phoenix and Indy are simple. If you qualify in first place, all you have to do is push your engine to the red line and make smart pit stops. The road race courses are another matter. They are narrow and winding all over the landscape. Passing opportunities are few and dangerous. You’ll find that many of the computer drivers are aggressive to the point of ramming you. Some of the cars also have greater acceleration. One tip is to move to the inside lane right at the green flag to block the hot shots who want to take the early lead. Mastering the road courses so you qualify for a high position is almost essential to winning. In two-player games, you drive against one opponent although other cars show up to make things interesting.

"...the computer drivers are aggressive to the point of ramming you."

Michael worked closely with Bullet-Proof during the development of the game, and his input ranged from driving tips to fine-tuning the tracks. In the end, he felt that the game did a great job of recreating both the realism and technical difficulties of the tracks, which are all based on actual Indy car races. We found that it really pays to listen to the champ.
Novato, CA—Mindscape is going back to the classroom in a number of ways with its new and upcoming sports titles. The most obvious school connection is the NCAA license for NCAA Football (released this month) and next winter's NCAA Final Four Basketball. But Al Unser Jr.'s Road To The Top also has a sense of going back to school because it follows Al Jr.'s racing career from Go-karts to Indy Cars. Even at the slow speeds of 60 mph, the Go-kart circuit provides the most fun of the four racing games due to its superior graphics. You see your driver leaning into curves and the cart seems to be on the road.

The inclusion of real schools, their logos, and playbooks based on the school's traditional style of play, add a lot to NCAA Football. Unfortunately, the simple graphics detract somewhat from the realism. It's too bad, because the AI is pretty good. By running the instant replay, you can see blockers making their assignments and defensive backs reacting to the play. The game is also very simple to learn and play. The tournament option lets you take your team through a fictitious national playoff. You can also have your friends suit up for the game if you have a multi-player adapter. Mindscape clearly wants to appeal to the more casual user. The side-angle view of the field looks like Tecmo Super Bowl, but NCAA scores over Tecmo in giving you real control of the defense. Hardcore football fans will probably want to hang tough for Madden NFL '95, but college fans and casual players should have some fun going back to college.

The brightest prospect in college sports, however, has yet to graduate. NCAA Final Four Basketball was created using SGI workstations and Alias software—the same combination of basic tools that Rare used to create Donkey Kong Country. The early results have looked good, but much of the AI had yet to be programmed when we took it for a spin. Still, one of the exciting possibilities of a fully rendered sports game is that you won't be limited to two-dimensional moves. Players can face any direction and backpedal. That sort of freedom of movement could make NCAA Final Four very impressive and life-like.
By GTE Interactive

Carlsbad, CA—GTE will receive full points for being the first major corporation to recognize street hockey as a legitimate sport in Street Hockey '95, but the question may be that by legitimizing it, does it destroy the very essence of the street game? The essence of street hockey is speed and spectacular skating moves. The settings are as varied as the players and there's no standardization. GTE reflects that in their video game with multiple settings and a variety of skaters. The music and graphics also add to the frenetic feel, but that's about the limit to the realism in Street Hockey '95.

The most important part of the game, however, is the play control, and in that aspect Street Hockey loses much of its sense of reality. GTE hoped to give the characters a realistic feel by including a momentum factor. It takes time to build up speed and lose speed or turn. But given the dimensions of a TV screen, that slowness means you have to make a major tradeoff. Either the view remains on your player, in which case you won't be able to see the puck at times, or the view follows the puck, in which case you won't be able to see your player at times. GTE opted for the second choice, and the awkwardness of controlling a player that is off the screen is like driving in thick fog—you have no idea where you are and destruction seems imminent.

If you get into playing this game, you'll find that it has a multi-player option for up to four players, tournament and practice modes, street talk option, intensity and five game options including Fat Point, Rush, Whack, Crammit and Hot Puck. Don't worry, rules are included on-screen for those who don't know what the game is about.
ESPN SUNDAY NIGHT

By Sony

New York, NY—Chris Berman introduces the match up in ESPN Sunday Night NFL, but that’s really the extent of ESPN involvement in the game. A bigger influence seems to be EA Sport's Madden series. The behind-the-scenes view is similar to Madden games, although Sony has produced a true Mode 7 scaling effect and a camera that starts wide, showing all the players, then zooms in slightly as the play focuses on a runner or receiver. The view works fairly well, but the wide starting angle reduces defensive backs to the size of ants. Offensive control is not nearly as intuitive as Madden NFL '95, although defensive control is comparable. Instead of having passing windows to choose receivers, you must select them by moving an arrow, which takes more time and sets you up to take more sacks. Once the ball is in the air and you have control of the receiver, the perspective makes it difficult to tell where the ball should be caught. ESPN doesn’t have instant replays, all-time best teams, substitutions or a multi-player option like Madden NFL '95. You can play exhibition games against one other player, select playoffs, save seasons with the battery backed-up memory or set teams to reflect their real levels of skill or make them even, which is an excellent feature for the two-player game. The quality is definitely improving, but Sony hasn’t yet reached the level where sophistication and fun go hand-in-hand as in the Madden NFL games.

“...set teams to reflect their real levels of skill or make them even…”

MADDEN’S BACK

By EA Sports

San Mateo, CA—Madden football returns to the Super NES this season with one of the best upgrades ever. Madden NFL '95 features an improved field perspective, battery backed-up memory, 48-player rosters (for the first time in Madden history!) injuries, team and player stats, new defensive playbooks, multi-player support for up to five players with the use of a multi-player adapter, offensive playbooks based on the actual NFL teams, new rules like the 2-point conversion, and even your choice of end zone shuffles. It’s so big, so complete, so good, that you might wonder if EA has put themselves out of business for future Madden titles. Sports Scene will take a longer look at strategies in a later issue. For now, fans should be aware that EA Sports hopes to have the game in the stores this November, and it’s the best Madden ever—nothing else is in the same class.
**JAMMIN’ IN THE STREETS**

**By GTE Interactive**

Carlsbad, CA—GTE had originally developed Jammit! for Virgin Games, but when they became an official licensee for Nintendo last summer, they decided to hold on to the game and publish it themselves.

“The one-on-one basketball tournament combines trash talking and pick-up games...”

If you’ve been waiting for this one, that’s why it was delayed. So what have you been missing? One of the more unique sports games, that’s for sure. The one-on-one basketball tournament combines trash talking and pick-up games, and to make things interesting, there’s a money bonus for the winner. Most games have basic variations in penalties or other rules, but some include moving or stationary shooting points from which you must score. There are different characters with which you can play and each has his or her own style and skills.

There’s also a two-player option so you can butt-heads with a buddy. In the two-player version, you can choose any of the variations of one-on-one play, but in the tournament mode you must progress through all the different games and you have no opportunity to practice. That’s part of the challenge—you have to learn as you go. The variety of Jammit! makes it worth a look, but the play control can turn you off. It feels loose, as if you’re not really in total control. The graphics are interesting, too, and the sound combines trash talking (as much or little as you want) and music—a sort of energetic funk background.

**THE CANNONDALE CUP**

**By American Softworks**

Stamford, CT—One of the few mass participation sports that has been neglected by video game makers is cycling, but not any more. Cannondale Cup from American Softworks puts you on two wheels with people power for the engine. In fact the game is the Super NES version of the LifeFitness LifeCycle software.

“Cannondale can be played with regular controllers and you don’t have to sweat.”

Cannondale can be played with regular controllers and you don’t have to sweat. In fact, with as little challenge as you’ll find here, you would be hard pressed to break a sweat. After choosing from eight far-out riders and eight types of bikes you’ll find yourself pedaling furiously on rough, 3-D courses with jumps, obstacles and ticked-off pedestrians. Actually, you must defend yourself from the other riders, as well, and there’s a punching option that turns the Cup into a brawl—the Tour De Grunge. Without a two-player option, Cannondale Cup offers very little variety or challenge. One race is pretty much the same as the next, and it takes extraordinary metitude to come in second or worse. At least with the expensive LifeCycle you get a workout while playing the game. Of course, you have to ask yourself if it’s worth $600.
In last month’s issue, we set the scene that is the backdrop for Final Fantasy III, and we introduced you to its characters. This month, our coverage of Square Soft’s eagerly-anticipated RPG continues with an in-depth look at the first series of events in the game. The tale begins in what is known as the World of Balance, where the Empire is using a combination technology and magic to take over the land.

Although magic had been safely locked away for generations, Imperial forces have stumbled upon descendants of the legendary magicians, and they’ve found a way to use them to their advantage.

**TERRA**  A FIGHTING MACHINE

Driven by greed and hungering for power, the Empire has brainwashed Terra and, by harnessing her magical powers, has turned her into a formidable fighting machine.

**FREEDOM**  RESCUED BY RETURNERS

When Terra comes face-to-face with an Esper, it begins to glow eerily. She falls into a strange trance, then everything fades to black. She regains consciousness in a house in Narshe, where she begins to recover her memory.

**FIGARO CASTLE**  MEET EDGAR, THE KING

The treasure hunter, Locke, takes her to the throne room to meet King Edgar, an amazing engineer and a hopeless flirt.

LOCKE'S SCENARIO

When Locke returns to South Figaro, Imperial troops are already there. In order to walk the streets without being recognized as a Returner, he must Steal a uniform from a soldier.

In battle, Locke can Steal a uniform from a soldier and use it for a disguise.

If Locke fights a Merchant, such as the one in the Item Shop, he can Steal his clothes. Wearing the merchant's clothes, he can take Cal and learn about a secret passage.

CELES

Use the "Courage" password to find the secret passage that leads to the rich man's house. Walk behind the bookcase in the drafty room upstairs to find a hallway with three doors. In the first room, Celes is being tortured by two Imperial soldiers. Locke recognizes her.

CELES was a General in the Empire's army but, disgusted with the atrocities she witnessed, she defected. Now she is the Empire's prairie.

Walk into the wall across from Celes' room to find a hidden room. The Treasure Chest there holds a powerful relic, the Hyper Wrist.

TERRA'S SCENARIO

With Edgar and Banon, Terra returns to Narshe, but they are denied entrance to the town, which is now held by the Empire. Instead of trying the main gate, walk to the left and use the secret passage in the rocks that Locke and Terra used earlier.

MEET MOG

PICK A PATH

A fight will show you the right path to follow. Watch carefully. If you don't follow the trail exactly, you'll be booted back to the beginning to try again.

Watch the light as it traces the path to the Moogle Cave, then follow its trail through the rocks to find a large group of Moogles. The Moogles know lots of dances, and they like to learn even more by traveling to other regions. Remember where they live and return later in the game.
SABIN'S SCENARIO

Sabin's scenario is the most complicated of the three. First, return to Sabin's Cabin to find Shadow, who will pair up with Sabin to meet the considerable challenges to come. He's a powerful ally, so have him join your party whenever possible.

Take Sabin back to his cabin. When you meet Shadow there, he will join you for the first time.

ENCAMPMENT

Search the tents and listen. General Leo is summoned by Gestahl. When he leaves, Kefka takes over and orders his troops to poison the water at Doma Castle.

A knight, Cyan, arrives to avenge the deaths of innocent people at Doma Castle. If you help he'll join your team.

ON THE ROOF

In the Phantom Forest, walk up through the trees to find a magic Spring that will heal your party. Walk down after passing the Spring to find the Phantom Train.

The Phantom Forest is a trap of sorts. You can't leave once you reach the Phantom Train.

Drink from the Spring in the Phantom Forest to refresh your team members. Walk up through the trees to find the magic water.

TO THE CABOOSE

Before turning left and heading for the Engine, where the brakes are, turn right and go to the Caboose to find a Save Point.

HIT THE BRAKES

In the Engine, you'll see switches on the wall that operate the train's brakes. You have to flip the right ones.

Flip the Left Switch and the Right Switch to stop the train. Don't touch the switch in the center.

GOBS O' GHOSTS

Now exit the Engine control room and walk to the front of the car and flip the switch there to stop the train.

Some are friendly.
**BAREN FALLS**  **TAKE THE PLUNGE**

After you defeat the Phantom Train, go to Baren Falls and jump in. You'll be carried to the Veldt region.

![Jumping into Baren Falls looks dangerous, but it's the only way to get out of the forest.](image)

After you defeat the Phantom Train, go to Baren Falls and jump in. You'll be carried to the Veldt region.

**THE VELDT**  **LAND OF THE WILD MAN**

After you fight on the Veldt, a wild and hungry man-boy will sometimes appear then run off. Go to Mobilz and buy Dried Meat. When you feed him, he'll join you.

![People in Mobilz will tell you about the wild boy on the Veldt. His father abandoned him at birth.](image)

**NIKEAH**  **SEASIDE TOWN**

Nikeah is a sleepy village. Upgrade your armor and buy all of the supplies that you can afford, then go to the dock and talk to the captain. When you set sail, you'll end up with the others in Narshe.

![You can't leave the area on foot. When you approach the captain, he'll tell you that the ship is bound for South Figaro. You'll actually end up in Narshe.](image)

**SHINY TREASURE**

Gau says that he's hiding a shiny treasure in a cave in Crescent Mountain. It's a Diving Helmet!

![With Gau's Diving Helmet, you can swim underwater. Now you can investigate the Serpent's Trench that a man in Mobilz mentioned.](image)

**SERPENT TRENCH**  **TRAVEL UNDERWATER**

Even though Gau is skeptical, you can swim using the Diving Mask. Jump into the Serpent's Trench and get ready for a wild ride. Take any of the routes shown.

![The point where you can jump into the Serpent Trench is just outside Gau's Cave](image)

You can take any of the routes shown above, but you can follow the most direct route by turning left at the first two forks in the river.
KEFKA'S ARMY INVADES NARSHE

The entire group assembles once more at the old Returner's house in Narshe. While they're trying to convince the city elder that they must rise up and resist the Empire, Kefka's troops attack the town. Now you have no choice—your people must fight for their lives. Before the fighting begins, assemble three teams and equip them with weapons, armor, relics and magic, then go take them on.

NARSHE SEARCH FOR TREASURE

Before departing from town, search the building for hidden treasure. In one of the buildings, you'll find several Treasure Chests that hold a bounty of booty.

There are lots of Treasure Chests in a single room. All of the chests except for one will open easily. That last chest is a mystery.

FIND FIGARO

If you return to Figaro Castle with both Edgar and Sabin in your party, you'll learn about their mysterious past. After exploring the castle and resting in the beds upstairs, talk to the engine operator in the room downstairs. He'll offer to take the castle to Kohlingen.

JIDOOR

Jidoo is a small town to the north of Kohlingen. It's known for its Auction House and for the collection of fine art owned by its wealthiest resident, Owzer.

SHOP IN THE CASTLE

Put Edgar at the head of your party before shopping in the Castle. The shopkeepers refuse to charge their full price, so you'll get a nice discount.

KOHLINGEN SHADOW SIGNS UP

If you have room in your traveling party when you go to Kohlingen, Shadow will join you. Getting him to enlist will cost you, though, so take lots of cash.

RETURN TO THE CASTLE

When you talk to the townspeople, you'll hear about a famous opera singer named Marie.
As the people of Jidoor warned you, Zozo is full of liars. There is one person who tells the truth, and he says only that the town is dangerous. And he's right! You'll be attacked at every turn as you explore.

You can't trust most of the people in Zozo. They won't even give the correct time of day, but you can believe them.

There are enemies at every turn as you climb the Tower. Attempt it only when you're well-supplied.

Jump from stairwell to stairwell as you work your way to the top of the Tower of Zozo.

Obstructions on stairwells keep you from climbing straight to the top of the Tower. You must jump back and forth between buildings.

The other men jumping back and forth between the buildings will give you some clues about setting a clock. You'll find them later.

Set the clock in the Cafe at 6:10:50 to make the wall open. Open the chest with the Chain Saw.

Set the clock in the Cafe to the correct time to make the wall open. Open the Treasure Chest in the next room to get the Chain Saw.
THE OPERA HOUSE A SAD TALE

When you talk to the Impresario, you'll learn that Setzer is after Maria. You want to meet him and use his Airship, so Celes agrees to stand in for Maria in tonight's opera. She must memorize the script and fill in the right lines to successfully fool Setzer.

INTERMISSION AN UNPLANNED BREAK

Suddenly, Ultros appears in the rafters above the stage, threatening to drop a deadly weight on Celes. You'll have five minutes to climb up and stop him.

VLTROS THE RETURN

Once again, you meet the tentacled terror, and he's causing trouble, as usual. Use a combination of magical spells and muscle power to defeat him this time.

SETZER AIRSHIP ENGINEER

Setzer shows up for a curtain call, and he whisks you away in his Airship. At first upset at the ruse, he is soon intrigued by your story. An adventurer at heart, he decides to help you out.
SETZER'S SHIP
AIRBORNE ADVENTURE

Your first flight is an awesome experience, as you float through the darkened sky toward Vector and beyond to Albrook.

ESPERS
FRIEND OR FOE?

Ride the conveyor belts to find the Espers Ifrit and Shiva. When you first meet them, they instinctively fight, but they soon cease fighting and turn themselves into Magicite for you to use against Kefka.

ALBROOK
SOUTHERN CONTINENT

When you talk to people in Albrook, you'll hear that something is being built to the east.

VECTOR
MOUNTAIN VILLAGE

Talk to the villagers in Vector. One man you'll talk to sympathizes with the Returners, and he'll help you find a way to get to the Magitek Factory.

THE FACTORY
MAGITEK MACHINERY

Inside the Magitek Factory is a maze of pipes and conveyor belts. Search everywhere to find treasures and openings that lead to new sections.

CID
MAD SCIENTIST

Cid is the brains behind the Factory. He was the one who figured out how to turn Espers into Magicite. Seeing how Kefka has used the factory, he now regrets creating it.
After Celes proves her loyalty by defeating Kefka and his guard, Cid escapes with you using an underground railway. You'll stop only to fight a Mag Roader.

#128

**MANIAC MACHINE**

#128 is a machine gone mad, with razor sharp blades on the right and left. You'll have to dismantle the machine, piece by piece, until it's a smoldering pile of rubble, incapable of further destruction.

When you destroy mean machine #128, Setzer will sweep in with his Airship to pluck you out of danger. Kefka's not done yet though. He has a couple more mechanical tricks up his sleeves in the form of two giant Cranes that pursue the ship.

When you escape from the Magitek Factory, Cid goes with you. He's had his fill of Kefka.

The underground railway is rapid transportation, but you'll have to stop to battle a Mag Roader.

CRANES

**DOUBLE DANGER**

Just when you think you're safe, Kefka's twin Cranes raise their ugly heads on the sides of the Airship.

**BACK TO Zozo**

**TERRA REMEMBERS**

When you return to Zozo, Terra's memory returns. She now knows that she is half human, half Esper, and that she was raised in the Esper world.

Terra can call upon both her human and Esper sides. For now, she becomes human.

During battle, Terra can morph into her Esper form and use more powerful magic.

**Mog**

Learn to fly the Airship on your way back to Narshe. When you arrive, go to the caves and rescue Mog. When you do, the dancing Moogle will join you.
THE ESPER'S CAVE A SEALED GATE

A new plan is set in Narshe. The Returners need the Espers' help, but only Terra can reach them. They must open the Sealed Gate to plead their case. To reach the gate, they must slip through an Empire base.

In the cave on the way to the Sealed Gate, there is a cavern filled with moving bridges. Watch the pattern to see where to stand.

In the next cavern, pull the switches to make doors open and creatures and items appear. Search thoroughly before moving on.

There's something under the ground...

When you reach the Sealed Gate, Terra approaches it to plead with the Espers inside. Suddenly, Kefka and his men appear.

The Emperor has lost his will to fight, but he gives you four minutes to talk to as many people as you can. Move quickly around the compound, searching for people. The number of people that you find is important.

Don't waste time searching for items while the clock is running. Look for treasures later.

Don't talk to Kefka! He'll rumble on for almost 30 seconds. Chat with him during dinner.

There are 24 people to talk to in the area. The number that you find determines how many of your wishes the Emperor will grant.

After your four minutes are up, the Emperor will invite you to dine. During dinner, you'll have a question and answer session. Be careful—the questions and answers are all worth a certain number of points.

There are 24 people to talk to in the area. The number that you find determines how many of your wishes the Emperor will grant.

FREE SOUTH FIGARO
FREE DOMA CASTLE
FREE THE FACTORY AT VECTOR
GET A MAGIC RING
GET A MAGIC BRACELET

Vector continues to call to the Espers inside the gate while you fight against Kefka and his troops.

Finally, the Sealed Gate inches apart and dragons and other beasts spill out. Before many escape, the earth rumbles and boulders tumble down to cover the gate.

VECTOR AFTER THE ESPERS

Vector is in flames when you return. The Espers had come to rescue their friends. When they learned what had happened to them, they attacked.

What the Emperor grants depends on how many people you found and which questions you asked.

If you find and talk to all of the people, the Emperor might grant all of your wishes.
Travel next to Thamasa, on the Crescent Island. The people there have magical powers passed down over the centuries.

Even the children seem to have magic powers, though their elders tell them not to use them.

Here you'll meet Strago and Relm. Relm is Strago's granddaughter, and she's a talented artist who loves to paint. Even her paintings have a magical nature.

**FIRE! RESCUE RELM**

That night, as you sleep in the Inn, Strago rushes in screaming. The house is on fire, and Relm is trapped inside. Rescue her before the place burns up.

Just when the situation looks hopeless, Shadow drops in to help. He uses a Smoke Bomb to get everyone out alive. Strago, of course, is very grateful.

Interceptor takes an unexpected liking to Relm, which puzzles Shadow. Strago tells of a nearby cave with three golden statues and offers to take you there.

If the three golden images are moved, the World of Balance will be thrown into frightening chaos.

**BALANCE...OR RUIN?**

Can the Returners keep Kefka from destroying the World of Balance to satisfy his own greed? Find out in next month's 12-page feature that picks up the action on the Floating Island.

The three golden statues are actually three goddesses who are the source of all magic.

With the crack of his whip, Indiana Jones heads into another one of his exciting adventures. His never ending search for rare and wonderful artifacts keeps Dr. Jones moving from one adventure to another, just barely avoiding the dangers that surround him. Experience the excitement for yourself as you relive Indy’s first three movies. But beware, the Nazis have their eyes on these treasures as well, which can only spell trouble! Can you stay ahead of the Führer’s troops and foil his plans? Swing into action and see for yourself!
THE ADVENTURES CONTINUE

After creating a series of successful Star Wars games, JVC and LucasArts have turned their skills toward recreating the Indiana Jones movies. Once again we have a classic in the making! Needless to say (but we’re going to say it anyway), the graphics and play control of this game are excellent! Right away you’ll draw on the similarities between this game and the Super Star Wars games. In some areas, this game feels like Star Wars with a whip, but that’s a good thing. Instead of dragging it out over three installments, all three movies have been faithfully condensed into one great game. The result is over 25 challenging levels of great action. Most of the stages in the game follow the familiar side-scrolling action format, but include many secret areas for players to explore. Some of the stages in the game utilize a 3-D mode of the game similar to Super Star Wars. This includes the rafting and mine cart stages in the Temple of Doom.

TOOLS OF THE TRADE

Every good adventurer carries a few weapons and tools, but they won’t do you any good if you don’t know how to use them. Read on for a quick lesson about using the required tools of the adventuring trade!

HEART
Collecting the Hearts can be a real bonus! Each Heart you find will fill your life bar by one segment.

GEM
You’ll find Gems spread throughout the entire game. If you collect 100 of these beauties, you’ll receive an extra life.

1-UPS
Try to find as many 1-Ups as you can. They are often hidden in remote areas of a level.

GRENADE
Lob one of these high explosives to clear out all of the enemies on the screen. You start with one, but you can collect more.

WHIP IT GOOD
Use the whip to swing from pegs that appear above you. If you need to swing across a distance, but the pegs seem to be placed too close together, try skipping one. Your whip is longer than it looks.

STOP, DROP & ROLL
After a little adventuring, you’ll learn to hate the spiders and rats that crawl along the floor. They’re too small to hit with your whip, but still hurt you. Kneel and press A to roll over them!

SHOOT & RUN
If you need to clear out the enemies while you’re on the move, then the Gun is the weapon of choice. You’ll need to stop running before you can use the Whip.
In 1936, Dr. Indiana Jones traveled to South America in search of the famed Golden Idol of the Hovitos. After travelling through the dangerous jungles of the Amazon basin, he arrived at an ancient temple. Legend says that the Golden Idol lies inside, but is well guarded by traps and evil spirits. To make matters worse, the present day Hovito Indians are not too thrilled about anyone entering the temple and are ready to finish off any infidels with their deadly poison darts. Having come this far, Indiana Jones is not about to turn back because of a so called legend, and into the temple he goes. Stepping carefully into darkness, he lets his eyes adjust to the gloom before proceeding. It’s time to leave behind his archaeologist’s logic for his adventurer’s instinct. All the books in the world can’t help him now.

This may be the beginning of the line for Dr Jones, but things are not going to be easy. Here are a few tips to help you get started in your very first adventure. Remember, things are only going to get tougher from here on out, so move carefully.

**EXTRA LIFE**

At the very beginning of the level there is a 1-Up, but it’s too high for you to grab. Use your Whip to grab onto the nearby peg and start swinging to reach the extra life!

**SPIKE TRAPS**

The coast looks clear, but dangers are everywhere. Start running and don’t look back until you have passed all of the spike traps. If you stop, you’re a goner!

**TIME TO ROLL**

Can’t reach the upper path? Kneel down and push the A Button. You’ll spring forward and roll under the rock that is blocking the path.
okay, you’ve made it all the way to the Golden Idol, but now you have to make it back out. With that Giant Boulder heading your way you’re going to have trouble getting out with your life, let alone the Idol. Watch your step and keep on running! If you hesitate, you’ll be trapped.

After the next hill, be ready to make two short jumps in a row. The spike traps in this area spring out of the floor quickly and can catch you off guard.

You are able to run right through this pot hole, so don’t jump over it. If you jump, you may land right in the middle of the next trap.

You are almost at the end! Your escape is near! The trouble is, these traps spring up quicker than the others. If you jump quickly and don’t blow your timing, you’re out of here!

When you start running up the hill, wait until you reach the very edge of the drop-off before you jump. If you jump any earlier, the spike traps in the floor are going to catch you.

Coming down the hill, many adventurers are fooled by this Gem. If you jump over the Gem, you’ll land in the trap. If you jump after the Gem, you’ll be safe.

Run up this hill and jump when you get to the top. But watch out for the trap! This tricky bugger is just waiting to drive you back into the boulder.

IDOL LOST

Just when you thought it was safe, René Belloq is waiting with an army of natives to tear the Golden Idol from your grasp.
After returning home empty-handed, Dr. Jones is greeted by Army Intelligence officers waiting in his office. They have intercepted a wire from the German Consul in Cairo. The Nazis are searching for the Lost Arc and all of its legendary powers. They believe that the Arc rests in the lost city of Tanis.

**NEPAL**

Dr. Ravenwood was the foremost expert on the Lost Arc. Since his death, only his daughter, Marion, holds the secrets her father discovered. Indy must travel to Nepal to find Marion and ask for her help.

**BONUS AREAS**

This stage has two different levels you can explore. The areas across the snowcapped mountains are full of enemies, and lower cave areas require tricky maneuvering to survive.

**INN ON THE MOUNTAIN**

Now that Indy's reached the Inn, he must find Marion. As soon as he starts to climb the stairs, the lower floors burst into flames. Race the fire to the top of the building, avoiding the pitfalls and weak boards along the way. Make sure you are ready to use your whip!
SAVE MARION

The fires are raging when you reach the top floor of the Inn. You've found Marion, but she's trapped by the Nazis. Try to collect as many Grenades as you can. The extra power will make short work of your foes!

CAIRO

Marion's medallion will help Indy find the arc before Belloq, but the script on it must be translated first. Indiana Jones and Marion travel to Cairo to locate someone that can read the ancient script. The Nazis are also hot on the Arc's trail, so Indy is in trouble from the very instant that he arrives in Egypt. In this mysterious city, it seems that anyone could be out to get our unfortunate hero. Good luck Indy!

CAIRO AT NIGHT

The Cairo Stage has two different bosses, Chase after the cart while avoiding the falling bales. After you shoot the bale thrower, get in the cart and fight the large soldier.
FINDING THE WELL OF SOULS

Now that Indy knows where to find the Lost Arc, it's time to find the Well of Souls. Swing through the Nazi encampment avoiding all of the enemy soldiers. If you take the time to explore, you can rack up the Gems in this stage.

THE WELL OF SOULS

SECRET PASSAGE

Look for the extra life in the first secret passage on the left side of the first drop. It's the only way to find this bonus. To find the second secret area, jump up onto the moving platform, then up into the secret passage. Inside the second secret area you can find the third secret area by holding right on the Controller when you fall through the hole in the floor.
THE TEMPLE OF DOOM

After finding the famed Lost Arc, most ordinary adventurers would be happy for the rest of their lives, but not Dr. Jones. Although he doesn't realize it at first, he is about to fall into another adventure of a lifetime. This adventure carries our hero from the Obi Won night club in Shanghai all the way to a gem mine in the middle of India.

PANKOT PALACE

When you reach the Pankot Palace in the center of India, you learn that an evil force has control of the young prince and all of his guards. To make matters worse, the only escape from this fortified palace is through the catacombs below. Finding the correct path through all of the secret doorways can be tough for even the best adventurers, so here is a little tip from us Pros at NP. When you first begin this stage, push the righthand statue to the right and enter the passage. Walk right, jump over the next statue, push it to the left and enter. Push the righthand statue to the right and enter, then push the righthand statue right again and exit the stage.

THE LAST CRUSADE

Even Indiana Jones might take a rest after that last adventure, but there are two things that set him on this next quest. One, his father is missing and may be in trouble, and two, this quest is for the Holy Grail! Could any self-respecting archaeologist pass up this opportunity? Indy didn't, and neither did the Nazis! This next adventure takes Indiana Jones to the heart of Nazi Germany to find his father and to save the Grail from the evil grasp of the Führer.
A TWISTER OF ISLAND ADVENTURES!

What's fresh, fruity and even a little zany? It's the hottest new action-adventure game from Hudson Soft—Super Adventure Island III! Old-timers will remember that the original Adventure Island was one of the first titles for the NES. This super new sequel is ready for the 90's. It combines your favorite Adventure Island action theme with a challenging RPG aspect that has Master Higgins digging things up all over the place! On the rebound from a stormy relationship with Jungle Jane, Master Higgins has finally found true love with the beautiful Tropical Tina. Little do they know, that there is trouble in paradise for these newlyweds, and it's dead ahead!
The star-shaped island of Waku-Waku is the main base. You will find many Sea Gate obstacles. You will only be allowed to proceed as soon as you have completed every task up to that point. If you think you’re stuck, you must have missed something. This prevents you from getting ahead of yourself.

GETTING AROUND

The former Adventure Island installments featured a left-to-right scrolling, side-view action screen. Most of the time, Higgins will be making his way through mazes and corridors, and will often retrace his steps.

While on the Raft, you can view the overworld, but Higgins be attacked at random. The screen will become a side-view. Defeat the enemies and leave the screen as soon as possible.

POKA-POKA ISLAND

The first leg of Higgins’ search for Tina is an excellent game-play preview of the remainder of the game. The enemies aren’t too difficult here, so enjoy it while you can.

ITEM CHECKLIST

- Make sure you have everything! Come back later for the inaccessible ones.
- SILVER SWORD
- LIFE BOTTLE • ICE SWORD
- DAGGER • 500 COINS
- FIRE BALLS • ICE SWORD

To get the Light Stone, beat the Tree by hitting it with the Sword. It isn’t hard, but it’s best to find the Life Bottle before the confrontation.

A SWORD SPORTING HIGGINS

A modern island adventurer won’t need to rely upon only his fists. Search carefully and Master Higgins can upgrade to the sturdy Silver Sword.

The Silver Sword is found in a Treasure Box in the lower left area, and should inflict a fair amount of damage.

THINGS CHANGE

Unlike the previous Adventure Island games, you will need to continue coming back to areas you’ve already passed. There are many areas within a stage that cannot be explored until you have received an item or learned a ability.

Once the Symbol Switch has been activated, all similar blocks in the game will change. You must learn the Shove Ability to move other blocks.
After beating the Tree Boss back on Poka-Poka Island, travel to the Cave near Waku-Waku Island and use the Light Stone to lower the next Sea Gate. In and around Hiya-Hiya, you will pick up many more valuable items, such as the Fire Sword, Fire Shield and Fire Armor. Master Higgins is becoming a sophisticated warrior in the course of this arduous journey!

Hiya-Hiya is a bit more difficult than Poka-poka. Here you will face Turtles, Bats and some snowball-throwing Bunnies. Be sure to get the Fire Sword in the first area in order to break the ice wall and enter the castle itself.

ITEM CHECKLIST
Below are items you should have now. You may need to return to Poka-Poka for a few:
- FIRE SWORD
- LIFE BOTTLE
- FIRE ARMOR
- 1000 COINS
- FIRE SHIELD
- MAGIC BOTTLE

VISIT ALL THE WHIRLPOOLS
Not all the items needed can be found on Islands. After each Sea Gate, explore all the Caves and Whirlpools you can get to in this area, it is the Ice Ball you must locate.

WISE MEN WILL SHARE THEIR KNOWLEDGE. HERE, YOU LEARN TO PUSH ROCKS

BARE NECESSITIES
What deluxe accommodations we offer! Master Higgins can finally trade in his modest fig leaf for this very handsome set of Armor. Search each Treasure Box in the Ice Castle to locate the full set of accouterments.

DOWN IN A HOLE
Does it seem like your going around in circles? After turning off the Switch on the upper level, push the Ice Block into the hole, then take the plunge and jump in, too!

I DREAM OF TINA
If you’re unsure about what to do next, head back to Waku-Waku to visit the Innkeeper. For 10 Coins, you’ll enjoy a nice rest and a clue from Tina in your dreams.

WOOLLY MAMMOTH
Switch to the Dagger and stay on the left side. Jump and shoot the Daggers into his forehead repeatedly — it takes a long time. When he charges, stay left and jump.
Higgins is really starting to cruise now! The Fire Armor, Sword and Shield will surely prove to be a big help in the stages ahead, especially when he was barely equipped before. After Hiya-Hiya, be sure to explore all the Caves and Whirlpools!

**BOA-BOA ISLAND**

Volcanic Boa-Boa Island is a hot and hostile place on the outside, and doesn't improve much once you use the Sun Ring to get inside. Your goals include finding the Aqua Stone to lower another set of Sea Gates. Also, the Ice Items are here.

**ITEM CHECKLIST**

Below are items you should have now. You may need to return to Poka-Poka for a few
- Ice Armor
- Ice Shield
- Magic Bottle
- 1000 Coins
- Magic Bottle

Each of the Islands are linked by Teleportation Caves. Although it’s not necessary to locate them, they can be helpful when you have to revisit other Islands to pick up Items inaccessible before.

**A TOUCH SHELL TO CRACK**

This overgrown tropical Turtle Boss is a real snapper! He will take plenty of practice and patience to defeat, because there is only a short time to get him in.

He'll then turn on thrusters and hover in the air dropping Turtle Babies. All you can do is wait.
The heat of Boa-Boa is off for the moment, but now it's off to Puka-Puka Island. Use the Aqua Stone to open up the southern Sea Gate and continue southward.

The cave above Sala-Sala has the Shovel needed in Puka-Puka.

Master Higgins isn't too keen on swimming, so the object of the Puka-Puka Island part is to drain the water away. The enemies are much more belligerent in this Stage, and the added confusion of Teleportation Whirlpools makes it a tough one.

**PUKA-PUKA ISLAND**

TO OCTO-BOSS

TO WATER SWITCH

AQUA MONUMENT

**ISLAND LINK TO SALA-SALA**

**ITEM CHECKLIST**

The items just keep getting bigger and better, and so do the enemies you'll be fighting against! Do you have everything?

- 1000 COINS
- 500 COINS
- MAGIC BOTTLE
- AQUA ARMOR
- MAGIC BOTTLE
- LIFE BOTTLE
- THUNDER SWORD
DO YOU DIG IT?
The shovel is both a necessary item and an impromptu weapon. There may be spots you passed earlier that seemed suspicious. Try digging, and if anyone bothers you, just smash them.

STABBING DOWN
There are many places you have passed that required the Down Stab technique to explore. Puka-Puka Island is precisely one of those spots. You'll be able to break the blocks with arrows.

CHECK YOUR HEAD
In case you haven't noticed the enemies are more aggressive now than ever. Not only do you have to fight or flee from the enemy, but you must also avoid bomb dropping seagulls and the current's swells!

DRAIN THE DRINK
The goal of the Puka-Puka Island Stage is to get rid of the water and explore the formerly waterlogged areas for goodies and treasures. This is no easy task, though. Read on for some helpful tips.

In your exploration of Puka-Puka Island, make your way to this spot, and you'll be near the Switch.

SWITCHEROO
Aha—the Switch has been found! Press the Switch to release the mighty waters into the sea.

FOUND AT LAST
Once the water has receded, Master Higgins will be able to explore the once waterlogged areas.

OCTOPUS
Dodge the tentacles while his head is down. When his head comes up, hit the Octopus' foot, then quickly turn around and hit him in the head. You won't be able to get many hits in at once, but the longer it takes, the more Link he will spread.

WHAT'S A PARADISE WITHOUT A CASINO
Enter the Whirlpool south of Puka-Puka to find a gambling extravaganza. You'd better bring dough!

FINES W EAPONS AVAILABLE
This Perry businessman certainly offers the finest weapons you can buy, but the price is no small chuck of change! You'll have to take a chance at the Casino to win enough for the good cause.

SWITCHEROO
Press the Switch to release the mighty waters into the sea.

FOUND AT LAST

Congratulations, you're a real Adventure Island trooper! Master Higgins can finally open the one remaining Sea Gate and explore the last frontier beyond. But first, head back to the Inn for a brief rest. Tina may have a nocturnal message for you! Also, beware of the dangerous sea creatures. It seems that the enemies you run across while on the Raft have become much more aggressive.

The hot desert background in the Sala-Sala Island Stage sure looks cool, but be sure to keep your Armor on, Master Higgins! That Fig Leaf you have on underneath won't give you the protection you'll need in this difficult area.

**ITEM CHECKLIST**
- One of the most important items to be located in this stage is the Legendary Axe. It is required to beat the Boss at the end.
- **LEGENDARY AX** • **MAGIC BOTTLE**
- **LIFE BOTTLE** • **CRYSTAL SWORD**
- **2000 COINS** • **AQUA SHIELD**

**CRYSTAL SWORD**
The search for the Crystal Sword should take you to an area near the top of the first Pyramid. This one is worth the trouble.

Equipped the beautiful blade as soon as you can or enemies will give you trouble.

Follow the picture to the correct door. The Crystal Sword lies beyond.
Master Higgins is doing a fine job rescuing a girl who, for all practical purposes, is a complete stranger. Both Tina and Higgins are starting to regain traces of their memory, though.

**FINALLY FUWA-FUWA**

Well, she can't be anywhere else but here, so make your rounds to the other islands and make sure you didn't forget anything. And all that exercise will do you and your spare tire some good!

Higgins tries to sleep through one more of those magazine, yet important, dreams.

Will the King have your head when you smash his bride-to-be?

The red blocks bounce you to the highest, the yellow blocks offer a medium bounce and the blue blocks' bounce is low. Hop along and they will change color, but watch your step—there are many spikes on the ceiling!

**GAUZE BOSS**

The Mummy Boss of Sala-Sala Island is the "soul" reason it was so important to recover the Legendary Axe. An expert will have him all wrapped up in no time, though!

The Legendary Axe awaits a worthy winner in this Chest.

Be sure to avoid the scrap of bandages trailing behind him.
Tetris fans rejoice! The creator of the famed classic, Tetris, has brought us another puzzling masterpiece to consume our waking hours. Spectrum Holobyte, with the help of Bullet-Proof Software, brings puzzle game players everywhere the spine tingling fun of Wild Snake. The challenging fun keeps on coming with many different options and game styles. This is definitely more than just a new twist on an old game!

Players can test their hand-eye reflexes against a swarm of falling snakes. As they fall, you eliminate them by matching snakes of the same color. The game may sound simple, but as the snakes speed up, the challenge grows. More and more snakes appear in an ever-changing array of colors. This wouldn't be so bad, except for the fact that they start coming faster and faster! Several skill levels and many different stages will keep the challenge coming for a long time to come. Do you have the skills to avoid getting bit?

**NEXT SNAKE**
Keep an eye on the box in the upper left corner if you want to know what the next snake is going to be.

**CURRENT LEVEL**
As you clear more snakes, the level of the game advances. As you get further in the game the number of different snakes increases.

![Next Snake](image1)

This screen may not look too complicated, but don't be fooled! There is a lot of information here, so it will take a quick eye to take advantage of it all.

**A SMALLER SCALE**
The slithering doesn't stop with the Super NES; you can take it on the road with the Game Boy as well. The Game Boy version of Wild Snake has been Super Game Boy enhanced so you can get Special Borders and full color screens if you use a Super Game Boy!

In the Game Boy version of Wild Snake, you can add a little challenge by activating the obstacles option. You'll need to steer your snakes clear of the orbs.
LEADING SNAKES

Like Irish hero St. Patrick, you can lead the snakes where you want them to go. The snakes will continue to fall, but you change their direction so they land where you want them.

BONUS SNAKES

When things start getting rough, you might get lucky and get a bonus snake! The flashing snake is the Wild Snake. It will match up with the first snake it touches, and remove every snake of the same color. The King Cobra will drop straight down, eliminating every snake in its path. Both of these snakes appear randomly, so you're lucky if you get them when you need them.

Both of these snakes appear randomly, so you're lucky if you get them when you need them.

FLASK

Try to get rid of snakes early when you play on this grid. If you keep the snakes from building up too high, you can use the wide base of the flask to manage several different kinds of snakes at once.

WILD SNAKE

Although this is the easiest level to spell, when the snakes start falling fast it can be the trickiest level to score on. Try to keep similar snakes on the same side of the X to use them to your advantage.
**THE KING COBRA**

After you have gotten the hang of matching the falling snakes, you can test your snake charming skills against the King Cobra. In this mode, you will face a wide range of challenges that become increasingly difficult as the nine different levels progress. Only the best game players will be able to make it past the coils of the King Cobra!

**EGG WIPEOUT**

You'll only have a few seconds to get rid of all the eggs in this challenge. To remove an egg, you need to direct a snake of the same color into it. If different color snakes appear, try to stack them out of the way so you can keep your path clear.

**TWO-PLAYER GAME**

If you think you're the top snake charmer in your neighborhood, then it's time to challenge your friends in a two-player match. The snakes are still controlled the same way, but each player fights for the next snake. Things get really mean when both players need the same snake, or the King Cobra appears in the next snake box.

**Alexey Pajitnov**

After learning that the creator of Tetris, Alexey Pajitnov, is involved with Wild Snake, Nintendo Power cornered him for this exclusive interview. Besides the new Alexey Pajitnov line of games with Spectrum Holobyte, Pajitnov is currently working with his own design team at Animatek.

**How does Wild Snake differ strategically from Tetris?**

Strategically, I think that Tetris is a more abstract and strict game than Wild Snake, because you don't have certain goals with each snake's move. In Tetris, you intuitively feel what's the best location for the block and try to make it fit, so you are very rational in your decisions. In Wild Snake you can be more relaxed and FreeForm. Sometimes there is a rational move, but otherwise, Wild Snake is not as puzzle oriented and is more an entertainment oriented game.

**What kind of game gets the Alexey Seal of Approval?**

You know, there are some young people who are really bored with their lessons at school. Suddenly, something hits them in class. Their eyes start to brighten and they wake up and have interest. For all of my games I would like them to awaken this same feeling.

**What makes a good puzzle game?**

Several things. First of all, it shouldn't be very boring. If it is a good game, it will have a very long line of
TIPS

With practice, anybody can become a successful snake charmer, but these tricks should help speed up the learning curve. Start on the Standard Grid on the Easy Level and practice these techniques before you frustrate yourself on more difficult levels. Don’t worry, there will be plenty of snakes to test your skills when you’re ready.

ORGANIZE SNAKES

Try to keep the snakes stacked at the bottom in columns. This will allow you to expose a wider selection of snakes and improve your odds of making a match. If you drop a snake straight down when it’s a couple of spaces from the wall and near the bottom, you can turn it towards the wall and stop it in an upright position.

DON’T COVER YOUR ASP

Snakes come in all kinds of colors and sizes, so try to keep the shorter snakes towards the top of the pile. If you place a long snake on top, it will block off several of the smaller snakes, making it difficult to clear the screen.

SLITHER INTO TIGHT SPOTS

These snakes are slippery critters, so keep that in mind when you are looking for a match. If you see a single-spaced opening, try to slide the snake in towards the bottom of the pile. You may get a match and cause all of the snakes to cascade to the bottom!

SNAKES-TWO FOR ONE

When a snake hits another snake of the same color, only the first snake will disappear. You can use this to your advantage if you have several snakes of the same color on the screen at the same time. Carefully maneuver the snake so that it eliminates as many of the snakes as possible!

IN THE PIRATE'S TOWER, HOW DO I OPEN THE DOOR ABOVE THE FOUR FLOOR SWITCHES?

To open the sealed door near the top of the Pirate's Tower, you must step on the floor switches in the correct order. Step on the upper left, the lower right, the lower left, then the upper right. If you complete the sequence correctly, the door will open when you step onto the switch in front of it. If you don't do it right, an alarm will sound and pirates will attack you. If the switches were already down, you have another task to do before coming here.

WHERE IS THE BLUE GEM?

The Blue Gem, which is one of three you'll need to find in order to teleport to Elfrea, is in the basement of the Red Tower, but you must beat the Dark Ghost before you can recover it. If you've defeated the ghost, these directions will take you to the gem. From the tower entrance, walk straight up to the wall. From this point, you can see two doors above you. Take the one on the left. Go across the room and down the stairs to a room where there are three Treasure Chests. The Blue Gem is in the center chest. If the gem isn't there (and if the floor is gray and marshy) it means that you haven't beaten the Dark Ghost.

From the Red Tower's entrance, walk straight up to the wall. From there, you'll see two doors above you.

Go through the door on the left, walk across the room and take the stairs down to the Treasure Room.

Take the blue Gem from the Treasure Chest in the center, then place it in its own tower.
You must have Karn, the thief, in order to open the Safe and free the rich man's daughter. Put him at the front of your party then face the Safe's door and press the A Button. If the door still says that it's locked, it means that you haven't found the Master Thieves' Book. If this is the case, return to the Krypt, where Karn joined you, and open all of the caskets on the lower floor. The last casket you open will contain the book. When you return to Auria with it, Karn will be able to open the Safe and free the girl.

First, find Karn and put him at the head of your party, then face the Safe's Door and press the A Button.

If the Safe won't open, you haven't obtained the Master Thieves' Book. Go to the Krypt to get it.

When you return to the Safe with both Karn and the Master Thieves' Book, the door will open.

**HOW DO I DEFEAT MOTHRO?**

You're destined for defeat the first time you meet up with Mothro, the boy who turns into a butterfly. After the battle, return to the village to find out about Mogu's Courage. Travel south, across the Steam Fields, and search for Mogu's Courage in a cave. When you find it, Mogu will join your party. Return with Mogu to fight Mothro. This time, your party will win.

If only Courage was with me. I would have strength.

Get clues about Mogu's Courage in the village.

Mogu: I'm not sure if I can beat him but I'll do my best. Will you help?

When you find Mogu's Courage, Mogu will join you.

**WHERE DO I FIND DRAGON EQUIPMENT?**

Dragon Equipment is special gear that you must find by fishing in different locations throughout the game. To fish, you must have Rod 5, which is hidden in the basement of Tunlan Castle. With the Rod, try fishing in the ruined well northwest of Romero, the ruined well southwest of the desert, the pond in Spring and the ruined well in the mountains east of Gramor. In each location, you'll find something great.
You can’t reach the treasure in Level 3 until you defeat the Spiked Pirate in Level 5. When you do, return and swim to the right. Go past the Treasure Room door then hit the first Face Block you find to get a Dragon Hat. Continue to the right to the Face Block that’s underwater. Use Dragon Breath to blast the Face Block and get the Treasure Key. Take it back to the Treasure Room to get the Golden Horn.

To reach Sherbet Land, you’ll have to take the upper exit from Mt. Teapot’s Level 8. From the beginning, go all the way right to the wall and hit the Face Block there to get a Jet Hat. Next, head back to the left, go under the ledge and enter the underwater door. Jump up the ledges on the right to reach a Save Point. Now work your way back down and around to the left side of the room. Exit through the door in the upper left. Go through two more rooms until you’re near the first exit. Stand on the platform next to the arrow of coins and jump up to the right. Press B to activate the Jet Hat, and keep holding Up and Right. The screen will scroll up and you’ll be able to land on a ledge. Go right to the exit that leads to Sherbet Land.

First, complete Level 32, then return to 31. Drop down to the right, get a Garlic Pot from the Face Pot, then continue down. Bash through the blocks on the right until you reach two Face Blocks. Hit the left one to get the Key, the right one to get the Jet Hat. Go right, then up the next ladder. Jump to the right along the platforms until you finally come to a narrow gap. Hop into the gap to find the Treasure Room.
WHERE IS THE SHOVEL IN LEVEL 2?

To find the Shovel in Level 2, go all the way to the right where Kaa, the stage boss, is sleeping. Before you collect all of the gems and wake Kaa, jump up and over to the branch that is above Kaa, to the left. When you defeat the monkey on that branch, it will leave the Shovel behind. Pick it up, then go wake Kaa and defeat him. Use the Shovel to enter the bonus round at the end of the stage.

WHERE IS THE SHOVEL IN LEVEL 6?

Level 6, Tree Village, has many vines to swing from and several huts that warp you to different sections of the stage. You'll use the huts to move back and forth in the stage to collect all of the gems on the various levels. To find the shovel, stay on the lower level and go all the way to the right. Go into the first knothole that you come to. When you exit, walk to the left, off the edge of the branch. Continue moving to the left and jump to the vine. Climb the vine, then continue going left to the next vine. Climb it, then swing to the right on the looped vines and jump to the ledge. Go right to the next vine, climb it, then walk to the left and enter the hut next to the Continue Marker. When you exit the hut, defeat the monkey you meet to get the Shovel. After you collect all of the gems and defeat the Mask, use the Shovel to enter the bonus round.

POWER GUIDE TO THE GUARDIANS

CASTOTH
The first guardian looks the worst, but soon you'll think back fondly to his quaint, saber-like talons and warm, lovable firebeams. Dodging the claws is job one and dodging the fire-shots is job two. Freedan can run around to the back where beams won't reach you as easily. Concentrate on one paw, and then the other. Then go for Castoth's ugly mug. When attacking, really lay into the guy with repeated, rapid sword strokes.

LAUGH IN THEIR
You'll laugh in the face of death, pull the pigtails of peril and tweak the nose of terror when using our strategies for axing the major guardians in Illusion of Gaia. For the gritty details on beating the bosses, you'll have to face up to the next four pages.
BASIC TRAINING

Most guardians move faster than you can walk, but not faster than you can run. Get in the habit of pushing twice on the Control Pad to run. Study the movements and shots of the guardians, attack when they’re not shooting, then run.

VAMPIRES

The Vampire couple should give you a run for your money. They attack with regular shots and a combined super shot. Three super shots will end your effort. Each Vampire has its own meter. Concentrate on one at a time, using Freedan’s Dark Friar shots to shoot long distance. Work your way back through Mu to find Freedan. It can be done! Also, wait near intersections so you don’t get trapped by the converging vampires. The combined shot is difficult to dodge, but if you anticipate its path, you can outmaneuver it.

VIPER

This feathered freak fires from the mouth on this narrow platform in the sky. Actually, Viper turns out to be one of the easiest of guardians, just so long as you avoid his feathers. When Viper stops moving, attack quickly and repeatedly, then get out of the way for the monster’s next attack.

SAND FANGER

Wait for the Fanger to appear from the whirlpool. When you see its head, attack like crazy. You’ll get a couple of hits.

At the end of the Great Wall of China you’ll find yourself facing the hideous Sand Fanger. This serpent lives in the sand and surges out to attack its victims. You must battle this foe as Will. First, watch for the whirlpool in the sand. Stand nearby. When the fangs appear, attack repeatedly. Keep attacking like this and dodging the Fanger when it dives back into the sand. The Fanger also has an electrical discharge at times, but it shouldn’t be a problem.

UGLY FACES

It isn’t pretty, but if you want to save the world, you’ll have to get used to spilling some slime.

Use Freedan’s Dark Friar shots to attack the Vampires from a safe distance. After shooting, run and power up for the next shot.

The super shot moves toward you, but doesn’t track you. When you see it forming, run away from the duo.

Only hits to the head will affect the Fanger. Stay away from its body and tail, and watch out for its shots.

You can hit the Fanger as it dives into the sand, too. Make sure you stand just to the side of where it will enter.
MUMMY QUEEN

You can fight the Mummy Queen either as Shadow or Freedan. The key to victory is in using the two transporters from the lower floor to the upper. The Queen has three attacks: a circle of blue ghosts, an earthquake attack, and a bolt of lightning. The ghosts appear when you hit the Queen. If you’re on the top level when you hit her, jump down just as the ghosts approach you. If you’re on the lower floor, run to the transporter. The stones shaken loose from the earthquake can be dodged. The lightning bolt is rare, but you can keep away from it by keeping the Queen off the screen. She moves slowly, so you can always jump or transport away from her after your attacks. Shadow can also use the Aura Ball.

THE TOWER

The Tower of Babel contains all your friends, waiting to pay you back for their earlier defeats. You’ll fight as Shadow, which gives you one huge advantage—the Aura Ball. Have the Aura Ball selected so you can turn Shadow into a puddle. Whenever he is about to hit, simply use the Aura Ball and melt. Since Shadow can’t take damage in his liquid form, you’ll be able to come through unscathed as long as you melt in time. The attacks of the guardians remain the same as in the earlier stages, only the rooms have

The Vampires are probably the toughest Tower guardians, but you can stand across the gaps and attack them safely.

Sand Fanger may be the easiest of the Tower guardians since his movement is so predictable.

Her Royal Mummyness has the same attack on this astral plain, Shadow should use the Aura Ball to escape her wrath.

You should also have saved as many Herbs as possible. The reason for this is that you must battle many of these guardians one after the other without being able to visit a Dark Space. There is only one Dark Space midway up the Tower. You can also bring Apples from Euro, which are worth a little premium, don’t rambo through this stage. Use some finesse.
**FINAL BATTLES**

The time has come for Will to transform into the Firebird and wing his way to the Chaos Comet for the final confrontations. At the top of the Tower, Will, Kera and their spirit helpers all join together to create the powerful Firebird. (Before reaching this final level where you'll make the epic journey into space, you'll have an opportunity to save the game and refill your energy in a Dark Space. You can also return to Dao at this point. If you have all 50 Jewels, you can learn the truth about Gem.) Your new fire shots give Shadow extra range for the two final battles ahead and the Aura Ball is your defense.

**THE COMET**

The Chaos Comet itself is your first enemy. When the Firebird lands on the frozen surface, the comet shows a malevolent face. The comet's attack is a rain of frozen fire that drops randomly from above. The Firebird must dodge the rain then attack when the Comet's mouth briefly opens. Stay near the bottom of the screen and make small sideways movements while dodging to decrease the chances of running into a fire drop while escaping another. Although the battle will rage for some time, you shouldn't take any damage if you are quick. It's important to preserve your life meter for the final battle.

*Send your flaming firebird shots at the Comet's open mouth. You'll get only a couple of hits each time.*

*Quick reflexes will keep you out of reach of the falling drops of green comet fire.*

**DARK GAIA**

The power behind the Chaos Comet and its devastating effects on Earth turns out to be Dark Gaia—sort of a cosmic evil twin of the Gaia who has helped you in the Dark Spaces throughout the game. Dark Gaia has multiple attacks including several types of shots that will fry your giblets. Again, stay near the bottom of the screen, this time right in the middle so you can shoot up at Dark Gaia's head. Watch out for the blue globes that move about guarding Dark Gaia and the energy balls fired in a crossing pattern from each side. Use the Aura Ball to melt Shadow when the shots come toward him. When you're in the clear, fire constantly at Dark Gaia, then get ready for the massive beam that fires from her mouth. If you lose, you'll have to start off back at the comet with half power. The key is melting away from danger.

*Shadow should melt down when shots are fired at him. When you appear again, move to center screen and fire.*

*When Gaia hurts light, you can stand in this safe spot, which isn't all that safe, or melt down using the Aura Ball.*

*Aim for Dark Gaia's head. You can only damage her when her mouth opens, which isn't often.*
AD 2636—A strange cloud appears over the Earth, and from it comes an unexpected alien attack. Earth is left in complete ruin. You are the last hope for mankind and you're armed to the teeth!

STAGE 1 ACROSS THE FIRE FIELD

If you've ever had the chance to play a Contra game, you'll be able to finish this level without much trouble. Work your way to the right across the Fire Fields, shooting at anything that gets in your way. Avoid being hit at all costs. One hit and it's all over.

1. WATCH YOUR BACK
   When you're working through this stage, it's important to keep an eye on the area behind your character. Enemies can storm you from any direction, prematurely ending your mission.

2. TANKS FOR THE RIDE
   If you want some extra power, take this tank for a spin. When it gets hit, you'll have to continue on foot.

Konami opens a new chapter in the Contra saga with the arrival of Contra: the Alien Wars for Game Boy. Similar to Contra III for the Super NES, this game allows Contra fans to take the famed conflict anywhere they go. Good graphics and familiar gameplay make this game a welcome addition to the Contra family, but players who have mastered the original Alien Wars on the Super NES may find this game a little too similar to the first one.

The graphics look good on a Game Boy, but they look even better on a Super Game Boy! If you don’t like the default colors, select your own.

**ARSENAL**

- **SPREAD SHOT**
  This weapon isn’t any more powerful than your normal gun, but it does have a wider range.

- **HOMING SHOT**
  This weapon shoots missiles that will seek out and destroy all of your enemies.

- **CRUSH GUN**
  The powerful shots of this weapon are great for destroying larger enemies.

- **FLAME THROWER**
  You can torch everything in your path with this ultimate weapon.

- **BARRIER**
  This may not seem like a weapon, but it destroys everything that hits your barrier.

**LEAP OF FAITH**

The large rock that flies out of the lava may prove troublesome for unwary mercenaries. Wait until the rock flies out of the lava, then jump as it starts to fall again. Quickly move out of the way before it reappears.

**STEADY AS A ROCK**

You can wait out the firestorm by standing in the corner of the screen. Wait until the lava trail moves from the left to the right side of the screen, then jump while it’s safe. If you don’t move quickly, you’ll have to face the heat.

**BOSS 1: BEAST KIMKOH**

When you face the boss of Stage I, you’ll need to think quickly. Target the glowing spot beneath his neck and keep firing your weapon. Avoid his shots as well as his biting attack. If you get hit you’re done for.

If you stand in the bottom left corner you’ll be safe from the beast’s bite, but watch out for his shots.

---

**GAME BOY CONTRA**
You hit the streets of the city, searching through the ruins to find the alien strongholds. You must destroy all five strongholds to clear this stage, but if you’re having trouble finding the aliens, fight your way in the direction of the flashing arrows.

Your objective in Stage 2 is to seek out and destroy all five of the alien strongholds.

The battle carries you across the top of the city, defeating the alien hordes that fill the airways. It will take sure feet and a steady aim to clear this level. If you miss a jump, your battle is over. Take your time and shoot everything that moves!

If you’re having trouble clearing the enemies out of your way before you jump, try using your bombs. When you’re risking your life anyway, you might as well use one of the bombs to clear the path. If it doesn’t work, you’ll get a new bomb with your next life! After the bomb clears the way, you can move before the aliens return.

Wait until the Wall Walker starts moving towards you, then move down while you’re shooting diagonally at it. Move back to the top of the room when it draws away, then repeat your attack again.
CONTRA THE ALIEN WARS

1. **Watch the Cracks**
   If the cracks in the ground spread clear across the street, look carefully for the safe path. If you cross anywhere else, it will spell your doom!

2. **Land Mines**
   The land mines spread throughout this stage can be deadly, but only if you stand on them. If you accidentally trigger one of them, run away before it explodes.

**Metallican**
This large metal-encrusted crustacean is as deadly as it appears. When it starts spinning, run or it’ll catch you, crushing your puny body. If things get rough, don’t forget to use your bombs!

You must start running away as soon as Metal bean begins to move.

Shoot off all six of the spiked wheels, then aim for the center of the beast.

**VOLUME 66 95**

**Boss 3: Robo-Corpse**
You only need to shoot Robo-Corpse’s head to defeat him, but staying away from his attacks may prove difficult. Continue moving around the room in a clockwise direction.

**F**—Flame Thrower
**B**—Barrier
**H**—Homing Shot
**S**—Spread Shot
**C**—Crush Gun

**Grab the Arm**
When this nasty little enemy appears, hop onto one of the spinning arms and quickly move to the outside edge. Continue to shoot at the center of the alien until it begins to explode. When he shoots his bombs, move to the other side of the room. Move back after they’ve exploded.

**Boss**
Choose your weapon! There are three different ways for you to destroy these pesky little space bugs.

RETURN TO 1978

When Nintendo heard that Taito was planning a Game Boy Space Invaders, they decided it was the perfect opportunity to showcase the abilities of the Super Game Boy. After getting the rights to make the game, Nintendo tweaked the programming a bit, adding several new Super Game Boy features, including three different color palettes. The best new feature is the full-fledged Super NES game included in the Game Boy Game Pak!
It’s true! There is a Super NES game hidden inside this Game Boy Game Pak! If you play Space Invaders with a Super Game Boy, you have the option to play the Arcade version of the game. All of the details of the original arcade games have been faithfully recreated, with all the original colors and sounds! You can choose from four different styles of the arcade classic, and you can play with one or two players alternating turns.

Your shots move much quicker in the Super NES game, making it easy to destroy the alien hordes.

Although it is easy to shoot the invaders at the center of the pack, it is dangerous to do this. If the aliens are spread out on the screen when they speed up, it’s almost impossible to destroy them before they hit the ground.

The Super Game Boy adds both color and style to the normal version of Space Invaders. You have the choice of three classic color palettes: color, black and white, or the incredible technique of putting colored cellophane on a black and white screen (1970’s high-tech!). The default border is a replica of the original stand-up arcade game, but if you pause, then press A, it will change to the tabletop version.

You can recreate the arcade classic with the help of special color palettes and this special border. It looks just like the real thing, only much smaller.

The Game Boy version of Space Invaders gives you the same classic action of the arcade, but lets you take the battle on the road! You can also use the Game Link and hook up with a friend who also has the game. In the two-player mode, you face off against your friend with one of you controlling the aliens!

Pause the game then press the A Button to find the secret border. Now you’re playing the sit-down Space Invaders.

If you grow weary of the special palettes, you can still create your own incredible color combinations. This one’s lovely!

The color may not be as exciting in the Game Boy version of Space Invaders, but the mobility is a big bonus! Blast aliens wherever you go!

DONKEY KONG COUNTRY

Donkey Kong returns to the forefront of video games after more than ten years. The game features fully rendered computer animation and traditional platform action, but the variety of play and fun characters encountered throughout the game make it more of an adventure. Don't miss this month's insider review.

INDIANA JONES' GREATEST ADVENTURES

The greatest hero of American cinema relives his greatest action-packed, death-defying, thrill-seeking moments. Scenes from all three Indy movies have been included in this game along with a variety of game play perspectives to add to the challenge. Before trying any of these stunts at home, read the Power review in this month's issue.

EARTHWORM JIM

Great animation and variety of play. Great irreverent, twisted sense of humor. Wonderful cast of enemy characters. Cow launching!

Play control feels loose and takes some getting used to. Unclear stage paths can cause some frustration.
**NBA LIVE ’95**

Basketball gets a new look from EA Sports with one of the hottest sports titles of the year. Every option you need to simulate NBA action has been included, both on the court and off. Check out the stats in this month’s Sports Scene.

- Excellent animation and AI. New perspective for EA Sports B-ball.
- Every option and aid to play you can think of. Battery backed-up memory. 1994 schedules and rosters. Trading.
- Passing is a challenge. Very fast action may leave casual players in the dust.

**MICHAEL ANDRETTI’S INDY CAR CHALLENGE**

One of the top drivers of the Indy car circuit brought his knowledge of the courses and Indy car racing to this game. From the smooth scrolling graphics to the race tactics, it is a realistic Indy car simulation. The playback feature lets you relive your great achievements, or learn from your mistakes. This month’s Sports Scene goes down to the track for a close-up of this speedster.

- Good Mode 7 graphics effects and simulated speed. Good play control. Two player option. Passwords. Playback mode with moveable camera positions. Some very challenging courses.
- Limited car modifications. Michael’s voice warnings can be confusing in two-player games. Unrealistically aggressive opponent drivers.

**SUPER ADVENTURE ISLAND 2**

This mix of side-scrolling action with RPG and adventure style elements makes for a deep game that is fast-paced from moment-to-moment. This month, Power looks in on the whacky antics of this island-hopping hero.

- A good mix of action and adventure with puzzles, items and helpful characters.
- Like previous Adv. Island games, the theme is pretty silly. Be warned: this isn’t a straight hop and bop.

**UNCHARTED WATERS—NEW HORIZONS**

Arguably Koei’s best RPG to date. Uncharted Waters—New Horizons combines the RPG depth of the original Uncharted Waters with the adventure elements of Inindo and the strategic considerations of PTO. What this makes is a vast game for players who love to immerse themselves. The economic component is particularly strong as you must trade cargoes around the world to make your fortune and build your fleet. The role you choose to play can be either male or female, and you can represent a number of nations. Interestingly, the players you don’t choose to use may also show up during the course of the game as rivals or friends. From charting new ocean routes to fighting restless natives, New Horizons simulates the great age of exploration and in so doing may convert adventure fans to this more cerebral type of game.

- High seas adventure, riches and piracy—great thematic Battery backed-up memory. RPG and strategy gaming. Very deep (and we’re not just talking about the ocean here).
**SPARKSTER**

Sparkster’s many moves make this game much more than your average side-scrolling action title. He jumps, shoots, flies for limited distances and blasts a wide variety of enemies. Nintendo Power covers the strategies of using rocket-packs and prehensil tails in this issue.

- Excellent graphics and play control. Good variety of play. Cool moves. Special stages with vehicles.
- Repetitious enemies. Nothing really new in theme or game play.

**WILD SNAKE**

As previously reported in Power, Wild Snake was developed by Bullet-Proof Software although Spectrum is publishing the title under its new Alexi Pajunen label. The creator of Tetris helped in the development of Snake, and you’ll feel the same sense of mental-captivation with this game. Power covers both the Super NES and impressive Super Game Boy versions of the game this month.

- Challenging and very addictive like Tetris. Eight grid shapes. Four backgrounds.
- Game progresses slowly.

**MADDEN NFL ’95**

The Madden series of football games returns for its fourth season on the Super NES with some excellent new options.
AL UNSER JR.'S ROAD TO THE TOP

Company: Mindscape
Suggested Retail Price: $64.95
Release Date: November 1994
Memory Size: 8 Megabits
Game type: Racing for one or two players

Players can race in Go-Karts, Snowmobiles, IROC's and Indy Cars. There are three race courses for each type of vehicle and a bonus race against Al if you win all four circuits. Sports Scene takes a test drive this month.

Easy courses and quick rewards—aimed at young players
- Simplicity is the key in most stages plus poor animation. Not much challenge.

CANNONDALE CUP

Company: American Softworks
Suggested Retail Price: Not Available
Release Date: November 1994
Memory Size: 8 Megabits
Game type: Bicycle racing for one player

The Tour de Grunge is a bicycle circuit with a truly strange field of riders. This game is virtually identical to the LifeCycle's Mountain Bike Rally, which can be played while pedaling on the LifeCycle from LifeFitness.

- Only bicycle racing game. Battery backed-up memory
- Little challenge and unrealistic animation

JAMMIT!

Company: GTE Interactive
Suggested Retail Price: $69.95
Release Date: November 1994
Memory Size: 16 Megabits
Game type: Street b-ball for one or two players

Jammit! is a different type of showboat b-ball game. The matches are one-on-one street ball against digitized opponents with wagers on the line. Sports Scene goes down town this month.

Unusual graphics with street appeal. The tournament includes some interesting variations on one-on-one hoops. Two-player option.
- Poor play control. Trash talk is awkward and gets old fast. (Fortunately, you can turn off the Trash Talk mode.)

BALLZ

Company: Accolade
Suggested Retail Price: $59.95
Release Date: November 1994
Memory Size: 8 Megabits plus DSP chip
Game type: 3-D tournament for one or two fighters

This intriguing fighter utilizes different sized 3-D balls to create the various fighting characters in the game. Because the program can quickly manipulate the balls at any angle, the result is a 3-D experience unlike any other you've seen. One problem with the game is that the balls are constantly flying apart and realigning themselves, which can make it difficult when you try to time your attack.

Very interesting perspective and a fun idea
- Following and controlling the moves can be difficult

BRAINIES

Company: Thust
Suggested Retail Price: $49.99
Release Date: November 1994
Memory Size: 4 Megabits
Game type: Puzzle for one

This aply named puzzle game requires players to move four "Brainies" about various 3-D boards with tracks where the Brainies travel. All four Brainies must be moved into their nests, but to reach the nests you'll have to move the Brainies past obstacles in the correct sequence. There is a time limit and various objects that can add to the difficulty (such as bombs) or help you out (such as the clock). You can also earn "passes" so that you can skip brain-bending levels if you

Fairly challenging. 101 levels. Easy to learn
- Exciting factor is pretty low, but puzzle fans may find enough challenge to make this interesting

STREET HOCKEY '95

Company: GTE Interactive
Suggested Retail Price: $69.95
Release Date: November 1994
Memory Size: 24 Megabits
Game type: Inline skate street hockey for up to four players

Street hockey may be one of the hottest new sports around, but GTE Interactive doesn't do it justice in their second street style game. Like Jammit!, the game includes Trash Talking, but it also has a multi-player option if you have a multi-player adapter. There are five game options and several street locations. Sports Scene looks in on Street Hockey this month.

Interesting graphics and a four player option
- Awkward play control.
**TNN BASS TOURNAMENT**

With a boat, a pole, a tackle box full of lures and a lot of patience, you can enter the latest Super NES bass extravaganza. The game takes you through every step, from driving your bass boat to choosing lures to casting and reeling. About the only thing you don’t get is the smell.

- The fish look good, and it’s tough to get them to bite. Very realistic.
- Some players will find this and other bass games to be tedious.

**BARBIE VACATION ADVENTURE**

When Barbie, the super doll, goes on vacation, she chooses her outfits then tries various activities like horse riding and setting up a tent. The animation is slow and stiff, making the game speed seem slow, as well. In some activities, the Controller functions are a great mystery and performing the activity becomes frustrating.

- Ken is nowhere to be seen.
- The ratings in the Now Playing chart tell the story on this one. All four categories score below average.

**SHAQ FU**

Shaq is a force in martial arts just as he is on a basketball court, at least in this fantasy-oriented game. Shaq is the only real person pictured. The other fighters range from ghoulish to alien, and the backgrounds against which they fight are also fantastic, supernatural type locations.

- A fun idea with some good graphics and animation. (Players should keep in mind that there is no basketball at all in this game.)
- Not a very challenging fighting game when fighting the computer. Play control isn’t sharp. Small characters.

**MIGHT & MAGIC III: ISLES OF TERRA**

Finally, the first person perspective epic has arrived, and it offers RPG fans a vast world with countless secrets. Your party of adventurers must destroy the evil on Terra while searching for a great wizard. Fighting is pretty standard as are the races you can recruit. Where Might & Magic III scores over many other games of this sort like Dungeon Master or Capcom’s Eye of the Beholder is the amount of freedom to explore and discover things.

- Interior areas difficult to navigate due to unvaried backgrounds. Standard fantasy story and characters. Some aspects of the play control are awkward.

**BEETHOVEN**

Beethoven the Saint Bernard rolled over the theaters of America, but video game players demand more than a title. Hi Tech delivers a large, lumbering, hairy dog. This is not a Super Game Boy enhanced title.

- He was a great composer in spite of being deaf.
- Very slow play control response. Uninspired game design.

**SPACE INVADERS: THE ARCADE GAME**

Taito, Space Invaders was purchased by Nintendo and dropped back into development. What emerges for this fall is a Super Game Boy game that also includes a full-color Super NES game program, as well. For a closer look, turn to this month’s Power review.

- Both Super Game Boy and Super NES games in one Game Pak. Classic Space Invaders never looked or played so good.
- This early video game hit doesn’t have the flash and excitement of today’s more sophisticated programs.
The Contra series continues with the second Game Boy battle against invading aliens. This is side-scrolling action that never slows down. Bullets fly as thick as hail, but you can pick up plenty of powered-up weapons. You can also pick up some survival tips in this month's review.

+ Good challenge and lots of action
- No Super Game Boy border. Poor sound. Control response seems slower than Operation C

### CHART KEY

**Play Info**
Games are made to be played with as many as eight players. Some also employ a battery or password to save game play data.
- #P = Number of Players
- S = Simultaneous
- A = Alternating
- BATT = Battery
- PASS = Password

**Power Meter**
The Pros at Nintendo HQ rate each new game. Ratings are from 1 (poor) to 5 (excellent) in four different categories:
- G = Graphics and Sound
- P = Play Control
- C = Challenge
- T = Theme and Fun
Disney’s The Lion King movie may have spawned a million licensed products—enough to make even a lion lose his appetite—but there’s one licensed product that this Pak Puma couldn’t keep his paws off of. The Super NES version of The Lion King has something for every video game fan or movie buff alike. Two months ago we showed our Pak Peekers a glimpse of the game and told them about the 2000 cells of animation that Disney artists created for this game. As impressive as the graphics and game play are, however, there’s another aspect of the game that stands out from the pack.

In our first look at the Super NES version of The Lion King, we didn’t have a chance to compare it side-by-side to the Genesis version. In most other respects, the Super NES and Genesis games were similar because Virgin used the same character animation in both games. But in the sound category, the difference is staggering. In the Super NES version, you’ll receive the full, rich, symphonic sound of the movie, including vocals in some selections. This is possible because the Super NES makes use of actual sampled sounds (such as real instruments and voices) and reproduces them in 16-bit stereo clarity. The result is that the sound effects and music help recreate the atmosphere of the movie and add depth to the game play experience. In comparison, the Genesis version has only flat, synthesized sound because it is limited by the Genesis’ 8-bit audio processor, and there are no vocals. If you have a choice, the Super NES version wins in every category, but the big winners are the players due to the exceptional sound reproduction. This Pak Listener is encouraged that more and more developers like those on the co-production teams at Virgin and Disney who worked on the Super NES version of The Lion King are taking the time to give players the quality they deserve. Graphics are important, but other game elements can add just as much to the gaming experience.
AERO THE ACROBAT 2

SUNSOFT

The flying rodent is back and just as cool as ever. In Aero's second adventure, he finds himself warped to a weird world by entering a magic box. Arch-villain Edgar Ektor is certainly behind it, but you'll have many stages of diving and drilling action before you find out for sure. Aero 2 has the same great graphics and music of the first game, and it also has the same unusual attack mode that is difficult to get used to. The variety of play is exceptional, as in the first game, with Aero puzzling his way through large stages filled with as many cool gadgets as enemies. There's also an added bonus—a shell game with Ektor, in which you guess which cup the golden Aero is beneath. Although Aero may not be for everyone, this Pak Bat thinks it's definitely worth a play.

TOP GEAR 3000

KEMCO

Top Gear 3000 blasts into outer space with a futuristic racing game that combines many features of the previous hit titles in the Top Gear series. The first thing that this Pak Gearhead noticed was that Earth was left behind for a tournament of races on alien planets. The fact that most of the planets looked pretty Earth-like diminished the effect, and there weren't any of the wild interstellar characters of Rock 'N Roll Racing. Where the new game scores over the older versions is that there is a multi-player option for up to four drivers if you have a multi-player adapter. Unlike Ubi Soft's Street Racer, which also has a four-player mode, Top Gear 3000 divides the screen into square quarters rather than making four thin slices for each driver's viewing window. In the tournament mode, you can win big money prizes, then turn the cash into better engines, boosters and other parts.

ARDY LIGHTFOOT

TITUS

When your Pak Player first plugged in a version of Ardy Lightfoot almost two years ago, not only was the game far from finished, it was also the property of ASCIIware. Now, the game is complete and it's being brought to you by Titus. The game features excellent graphics and a variety of play that exceeds most standard action games. It's a bit strange, too. For instance, Ardy has a spring-loaded tail. He also has a little companion, Pec, whom he uses to throw at enemies...what a friend! Ardy's quest is to collect seven pieces of the rainbow in 17 areas while the evil Viscenty tries to do the same thing. Look for Ardy around January.
C2: JUDGMENT CLAY

Get ready to thrash with Frosty, Tiny, Blob, Nana, Octo, Lucy, Goo Goo, Hoppy, Kanga and their nine evil counterparts in C2: Judgment Clay also known as Clay Fighter 2. Interplay's latest comic fighting game has many new characters, improved graphics and animation and a slough of options, but the most fun is still to be had with two players squaring off. Although most of the characters and their moves are cool, few have the appeal of characters in the original Clay Fighter like Blue Suede Goo and Hilda. For Clay fans that just can't get enough, there will even be a TV show in the fall of '95 featuring Interplay's comical molded characters.

STAR TREK: STAR FLEET ACADEMY

Remember the Kobashi Maru? Every Star Fleet cadet worth his or her stripes has had to command the doomed ship in the ultimate test of character. Interplay's Star Trek: Star Fleet Academy puts you into the training simulator for just such a test. The many missions, which include The Wrath of Khan and Undiscovered Country, seem more real than any previous Star Trek license. Once you're in the simulator, you'll find yourself commanding a Star Fleet vessel, or possibly an alien vessel, like a Klingon or Romulan ship. You'll have control of all ship systems including weapons, navigation, communications and engineering. The interface is the best Star Trek bridge simulation ever—far better than the awkward bridge control that met Trekkers aboard Spectrum Holobyte's Star Trek: The Next Generation. On the other hand, Star Fleet Academy lacks the character adventure elements of Star Trek: The Next Generation, which was that game's strength. Instead, Star Fleet Academy really feels like a simulation game. It even includes a two-player battle mode. Most surprising of all, however, is in this day and age of 16, 24 and 32 megabit games, Star Fleet Academy packs some of the best sci-fi graphics and gaming into a seemingly tiny four megabits. When can you go star-hopping? Look for it by late December or January.

NHL '95

The latest reincarnation of EA Sports' hit hockey game will take to the ice this fall when NHL '95 arrives. What's new? First off the game contains the NHLPA license and '93-'94 roster listings. There's a trade option, player creation mode so you can load your team with stars, team and individual stats and a battery backed-up memory. Other features include season play, instant replays, all NHL teams and logos. The Make Player is the coolest of the new options. After naming your rookie, you can expend a limited number of points on 11 skill categories including speed, agility, endurance, shot power, aggression, stick handling and checking. You can create a balanced player, a speedy offensive star or a solid goalie. On the ice action feels pretty similar to previous incarnations of this game, which means that it's the best around.
Koei is breaking the mold and redefining what a strategic role-playing game should be. The recent Uncharted Waters: New Horizons was the first step, but the next step may be even more dramatic with Rise of the Phoenix. The game, currently in development, will be based loosely on the Romance of the Three Kingdoms series. Again, the main characters are Chinese rulers of long ago, but in this case there are two main rivals rather than a dozen. In fact, the game is meant to be played as a two-player strategy game. What’s beyond Rise of the Phoenix is even more exciting. Koei, like Square and Enix before it, has decided to enter the realm of true adventure games along the lines of The Legend of Zelda. The first title for Koei will be Brandish, due out in March of ‘95. Described as Secret of Mana-like, Brandish has an overhead view, lots of exploration and hands-on combat. This Pak Adventurer can’t wait. But that isn’t all. Perhaps just as big is the announcement of Koei’s interstellar strategy game. It hasn’t been named yet, but this game of galactic conquest will feature fleets of ships that are used to expand vast empires. This type of game has enjoyed lots of success on PCs with Masters of Orion and Planets VGA, but this will be the first time that such a game has been created for the Super NES, and it’s long overdue.

The lack of a two-player Game Link option, however, was a mistake. Still, the action rips with the NBA’s hottest stars and unbelievable super shots. It certainly won’t replace the Super NES version, or the upcoming Tournament edition which Acclaim is bringing out in ’95, but for on-the-go gaming, this NBA Jam is a winner.

If this game looks familiar, it’s because it is a revamped, Super Game Boy version of Bomberman with the addition of Wario. This is truly a Bomberman game, which means that it’s fun enough to keep players bombing for hours at a time. The idea is that you run around bombing obstacles and enemies while trying to remain outside the range of other bombs. It’s tougher than it looks, Wario Blast also has the added challenge of play fields that scroll on the one-player games. That opens up a lot of strategic possibilities that no previous Bomberman game had. Wario Blast also features a four-player mode for players with a multi-player adapter for the Super NES and a Super Game Boy. This Pak Bomber has to go on record one more time as saying that you haven’t lived until you’ve played a four-player round of Bomberman. As for Wario, he adds a certain comic feel to the game that the helmeted Bomberman lacked, but if you’re a purist, you can also play with Bomberman himself. In short, Wario Blast is the best of both worlds, Game Boy, Super NES, Bomberman and Wario. You get it all, and lots of fun.
Acclaim Entertainment continues to make major moves that will ensure a hot lineup of new game licenses. The most recent announcements from Acclaim reveal a deal with Warner Bros. that will make use of Acclaim’s motion capture technology in the upcoming feature, Batman Forever. According to Acclaim, this is the first time that a technology pioneered in video games has been used in a motion picture. Although we don’t know what special effects will be created for Warner, the deal also gives Acclaim the rights to the Super NES game, which should share some of the same special effects as the movie. Other moves by Acclaim include the purchase of Voyager, one of the largest comic book publishers in the country, and the purchase of a minority interest in Digital Pictures—a software company that is pioneering technologies that compress video imagery and speed up response times of on-screen video characters.

If there’s one thing that makes a video game come alive, it’s being able to play against another person. The Catapult modem for the Super NES will allow players to take on all comers, even if they live across the country. So how does the Catapult work? A player calls up the Catapult access line using the modem and specifies the game he or she wants to play. They can set it up to play against a specific player (who must also be online) or compete against players of a specific skill level. The system should work with any two-player game such as Super Street Fighter II, Mortal Kombat II or NBA Jam. Catapult estimates the monthly service charge for access should be less than $10. Very cool!

Speaking of cool, one of the hottest comic cast of characters in history is coming to the arcade soon from Capcom. The X-Men arcade game features the super heroes and villains made famous in comic books and TV. This is a tournament fighter, unlike the X-Men: Mutant Apocalypse for the Super NES, which is due out this winter.

Also due for release this winter is Break Thru, a puzzle game from Spectrum Holobyte with a difference. Instead of starting with an open area that fills up with tetrads, Dr. Mario’s vitamins or whatever, you start with a filled area that you must empty. Sure, it sounds easy, but reducing the final rubble pile at the bottom can take as much cunning as flipping your tetrads to form a line in Tetris. A time limit adds to the challenge.

You can challenge some of the best pro athletes this month in a multi-city event sponsored by Mindscape and the Make-A-Wish Foundation. On November 19th, Mindscape will have play stations with its new NCAA Football, and pros on hand to play against you. For the
event closest to you, check the following list of suburban locations: North Point Mall, Alpharetta, GA; Lincolnwood Town Center Mall, Lincolnwood, IL; Town East Mall, Mesquite, TX; Smith Haven Mall, Lake Grove, NY; King of Prussia Mall, King of Prussia, PA; Wonderland Mall, Detroit, IL; Town & Country Shopping Mall, Houston, TX; Vallco Fashion Park, Cupertino, CA; Del Amo Fashion Center, Torrance, CA; Fashion Center at Pentagon City, Arlington, VA.

What's new on the licensing front? Capcom's Mega Man is on the tube this fall. Tim Allen's Home Improvement from Absolute has finally been nailed down for its release next month. Hi Tech has landed the Casper license, based on Spielberg's upcoming movie and the license for Apollo 13 with Tom Hanks. Hi Tech is also coming out with a football game for young players called Team NFL Heroes, which features diminutive players and simple plays. Also on the tiny sports scene is T*HQ, which has reached an agreement with EA to expand its licensing of EA titles for Game Boy. In addition to Madden '95, T*HQ will be publishing Michael Jordan's Chaos in the Windy City and Shaq Fu plus a full line of EA Sports offerings. Pak Watch also received the finished seaQuest DSV from T*HQ, and it looks A-OK, as you can see. Oh, and what discussion of monster licenses would be complete without mentioning Ocean's Jurassic Park 2. In this loosely adapted Super NES game, you'll find yourself on a wild dino hunt through the jungle and other areas. Armed with an incredible array of weapons, you'll blast everything that moves and probably still get munched by a raptor. Ocean felt the Jurassic Park license needed more action and they gave it to you in a double serving.

This Pak Tracker was recently carried back to the early days of the NES when an Excitebike look-a-like for the Super NES showed up, Moto X from Trimark slaps you down on brutal cross-country courses with hills, jumps, pits, obstacles and over-heating engines. The game scrolls sideways like the classic Excitebike, but the graphics were considerably better.

In other time warp news, Time Cop from JVC doesn't look like it will make it out by the end of the year. Look for it in February or March. Tarzan from Gametek has also been delayed until early 1995. Accolade has updated its Brett Hull game with Brett Hull Hockey '95, due out in January. And Nameco is working on Pac In Time, another adventure for the timeless Pac Man.

Your Pak Hunter has been patiently stalking the VR 32—Nintendo's new 32-bit technology—and has managed to catch up to it at the Sho shinkai video game exposition in Tokyo. Next month, we'll have the first close-up look at this amazing new game system.
